# The light that thrills

## La luz que emociona

[EN] At a-emotional light, emotion takes on a unique value. It's the value of craftsmanship, of the singular and the exclusive. Light is a medium for evoking emotions, as music or art does. This perspective leads us to perceive our designs as bespoke creations, individually handcrafted pieces meticulously designed to illuminate spaces, touch people's hearts, and capture special moments.

[EN] En a-emotional light, la emoción adquiere un valor propio. El valor de lo hecho a mano, de lo singular y lo exclusivo. Para nosotros, la luz es un medio para evocar emociones, igual que lo son la música o el arte. Esa visión es la que nos lleva a entender nuestros diseños como creaciones de sastre, confeccionadas individualmente y de forma artesanal, pensadas para iluminar espacios, personas y momentos.

[EN] The story of a-emotional light is woven with threads of light, experimentation, and artisanal craftsmanship. Nestled in the northern regions of Spain, for over 25 years, our workshop has functioned as an artistic laboratory. From this very origin, our lamps have sought to shine with a distinctive identity capable of surprising and stirring emotions.

[EN] La historia de a-emotional light está compuesta por luz, experimentación y artesanía. Ubicado en el norte de España, durante más de 25 años nuestro taller funcionó como laboratorio artístico. Es por eso por lo que desde el origen, nuestras lámparas han buscado destacar con una identidad única, capaz de sorprender y emocionar.

[EN] Our light is deeply rooted in the earth, guided by universal principles that are both singular and eclectic. We represent a contemporary, avant-garde light that illuminates and creates environments that touch the soul and uplift the spirit, reflecting our commitment to innovation and design.

# a · universal light

[ES] Nuestra luz está profundamente enraizada en la tierra, guiada por principios universales que son a la vez singulares y eclécticos. Representamos una luz contemporánea y vanguardista, que ilumina y crea espacios que tocan el alma y elevan el espíritu, reflejando nuestro compromiso con la innovación y el diseño.

[EN] Atmosphere / matter / emotion / void / shadow / serenity / twilight

These concepts, like seven random musical notes, may or may not make sense, but when combined with rhythm and order, they create a melody. Through light, all these elements come together to shape the new a-emotional light collection—one that speaks of harmony and balance between forms, of envisioning a universe to create atmospheres and spaces to live in.

From our ideas and those of our designers, brought to life through craftsmanship in our workshops—for you.

[ES] Atmósfera / materia / emoción / vacío / sombra / serenidad / penumbra

Estos conceptos, como 7 notas de música aleatorias, pueden tener sentido o no, pero combinadas con ritmo y orden pueden dar una melodía. Todos estos conceptos a través de la luz componen la nueva colección de a-emotional light. Una colección que habla de sintonía y equilibrio entre formas, de idear un imaginario para crear atmósferas y espacios en los que convivir.

De nuestras ideas y las de nuestros diseñadores, a través del trabajo en los talleres, para vosotros.

## Diseñadores

### Arturo Álvarez

[EN] Arturo Álvarez is a designer, artisan and artist, but he prefers to define himself as a creator. Self-taught and curious, his work has evolved from the figurative and nature inspired to abstraction and geometric forms. Today he explores light as a means of expression, addressing the human being and his relationships through shadows, contrasts and new techniques and materials.

### Isaac Piñeiro

[EN] Isaac Piñeiro creates intuitive products, exploring efficiency in terms of design, production and form. He conceives design as a craft: a transversal discipline, where collaboration and co-creation are essential. His strategic approach seeks comprehensible, timeless and durable objects. He has worked with national and international brands, winning awards such as the IF Design Award and Red Dot. Since 2021, he has been creative director of a-emotional light.

### Héctor Serrano

[EN] Héctor Serrano, Valencian industrial designer, founded his studio in London in 2000 and throughout his career he has explored product, furniture and immersive installations. His work fuses innovation, memory and surprise, creating timeless and emotional objects. He has collaborated with national and international brands, and has been recognised with awards such as the Red Dot and the Spanish National Design Award 2024.

### Cenlitros

[EN] Cenlitros is a design cooperative founded by Ricardo Tubío and Xabier Rilo. Their approach seeks a humanist design that transcends the functional, integrating social and emotional factors. For almost twenty years, they have been developing product, graphic, packaging and space projects, both ephemeral and permanent, exploring the creative, technical and socio-cultural spheres.

### Tomás Alonso

[EN] Tomás Alonso, born in Vigo, left Galicia at the age of 19 to become a trained designer. After living in the USA, Italy and Australia, he completed a master’s degree at the Royal College of Art and founded his studio in London in 2007. His work spans furniture, lighting and interior design, collaborating with brands such as Hermès, HAY and Ikea. He has exhibited in museums and international fairs, combining his work as a designer with teaching at ÉCAL.

[ES] Arturo Álvarez es diseñador, artesano y artista, pero prefiere definirse como creador. Autodidacta y curioso, su obra ha evolucionado desde lo figurativo y la inspiración en la naturaleza hacia la abstracción y las formas geométricas. Hoy explora la luz como medio de expresión, abordando el ser humano y sus relaciones a través de sombras, contrastes y nuevas técnicas y materiales.

[ES] Isaac Piñeiro diseña productos intuitivos, explorando la eficiencia en concepción, producción y forma. Concibe el diseño como oficio: una disciplina transversal, donde la colaboración y la co-creación son esenciales. Su enfoque estratégico busca objetos comprensibles, atemporales y duraderos. Ha trabajado con marcas nacionales e internacionales, obteniendo premios como IF Design Award o Red Dot. Desde 2021, es director creativo de a-emotional light.

[ES] Héctor Serrano, diseñador industrial valenciano, fundó su estudio en Londres en 2000 y a lo largo de su trayectoria ha explorando producto, mobiliario e instalaciones inmersivas. Su trabajo fusiona innovación, memoria y sorpresa, creando objetos atemporales y emocionales. Ha colaborado con marcas nacionales e internacionales, y ha sido reconocido con premios como el Red Dot o el Premio Nacional de Diseño 2024.

[ES] Cenlitros es una cooperativa de diseño fundada por Ricardo Tubío y Xabier Rilo. Su enfoque busca un diseño humanista que trascienda lo funcional, integrando factores sociales y emocionales. Durante casi veinte años, han desarrollado proyectos de producto, gráfica, embalaje y espacios, tanto efímeros como permanentes, pudiendo explorar el ámbito creativo, técnico y sociocultural.

[ES] Tomás Alonso, nacido en Vigo, dejó Galicia a los 19 años para formarse como diseñador. Tras vivir en EE.UU., Italia y Australia, completó un máster en el Royal College of Art y fundó su estudio en Londres en 2007. Su trabajo abarca mobiliario, iluminación e interiores, colaborando con marcas como Hermès, HAY o Ikea. Ha expuesto en museos y ferias internacionales, combinando su labor de diseño con la docencia en ÉCAL.

### Teresa Sapey + Partners

[EN] Based in Madrid since 1990, Teresa Sapey + Partners is a multidisciplinary studio that designs spaces filled with feelings. Its bespoke approach combines architecture, interior design and urban planning, with a special focus on colour, light and materials. It stands out for transforming urban spaces and creating unique projects in hotels, shops and residential facilities, such as Room Mate Bruno, Nhow Marseille and Amor De Dios in Madrid.

### PF1 Interiorismo

[EN] Specialising in the hotel contract environment, the designers of the PF1 studio incorporate their experience in the creation of special pieces for each environment into product design. The sum of this team has resulted in numerous national and international awards for their work in the hotel industry.

### Rafa Alonso

[EN] Rafa Alonso, a teacher by education and vocation, experiments with shapes and thinks with his hands. His creative work, rooted in craftsmanship and contemporary art, transforms everyday materials into expressive pieces. His social commitment led him to create Lea, a project with a solidarity impact. The emotion, simplicity and purity of its forms make his design a unique choice for a-emotional light.

### a-emotional light design team

[EN] Our in-house design team explores light by experimenting in our workshop, combining craftsmanship and technology. From our headquarters in Galicia, we research innovative materials and processes to create luminaires that transcend functionality and evoke emotions. A manual and experimental approach allows us to develop unique pieces, where each shape and texture is born from the dialogue between idea, matter and light.

[ES] Con sede en Madrid desde 1990, Teresa Sapey + Partners es un estudio multidisciplinar que diseña espacios con sentimientos. Su enfoque a medida combina arquitectura, interiorismo y urbanismo, con una atención especial al color, la luz y los materiales. Destaca por transformar espacios urbanos y crear proyectos únicos en hoteles, comercios y residencias, como Room Mate Bruno, Nhow Marseille y Amor De Dios en Madrid.

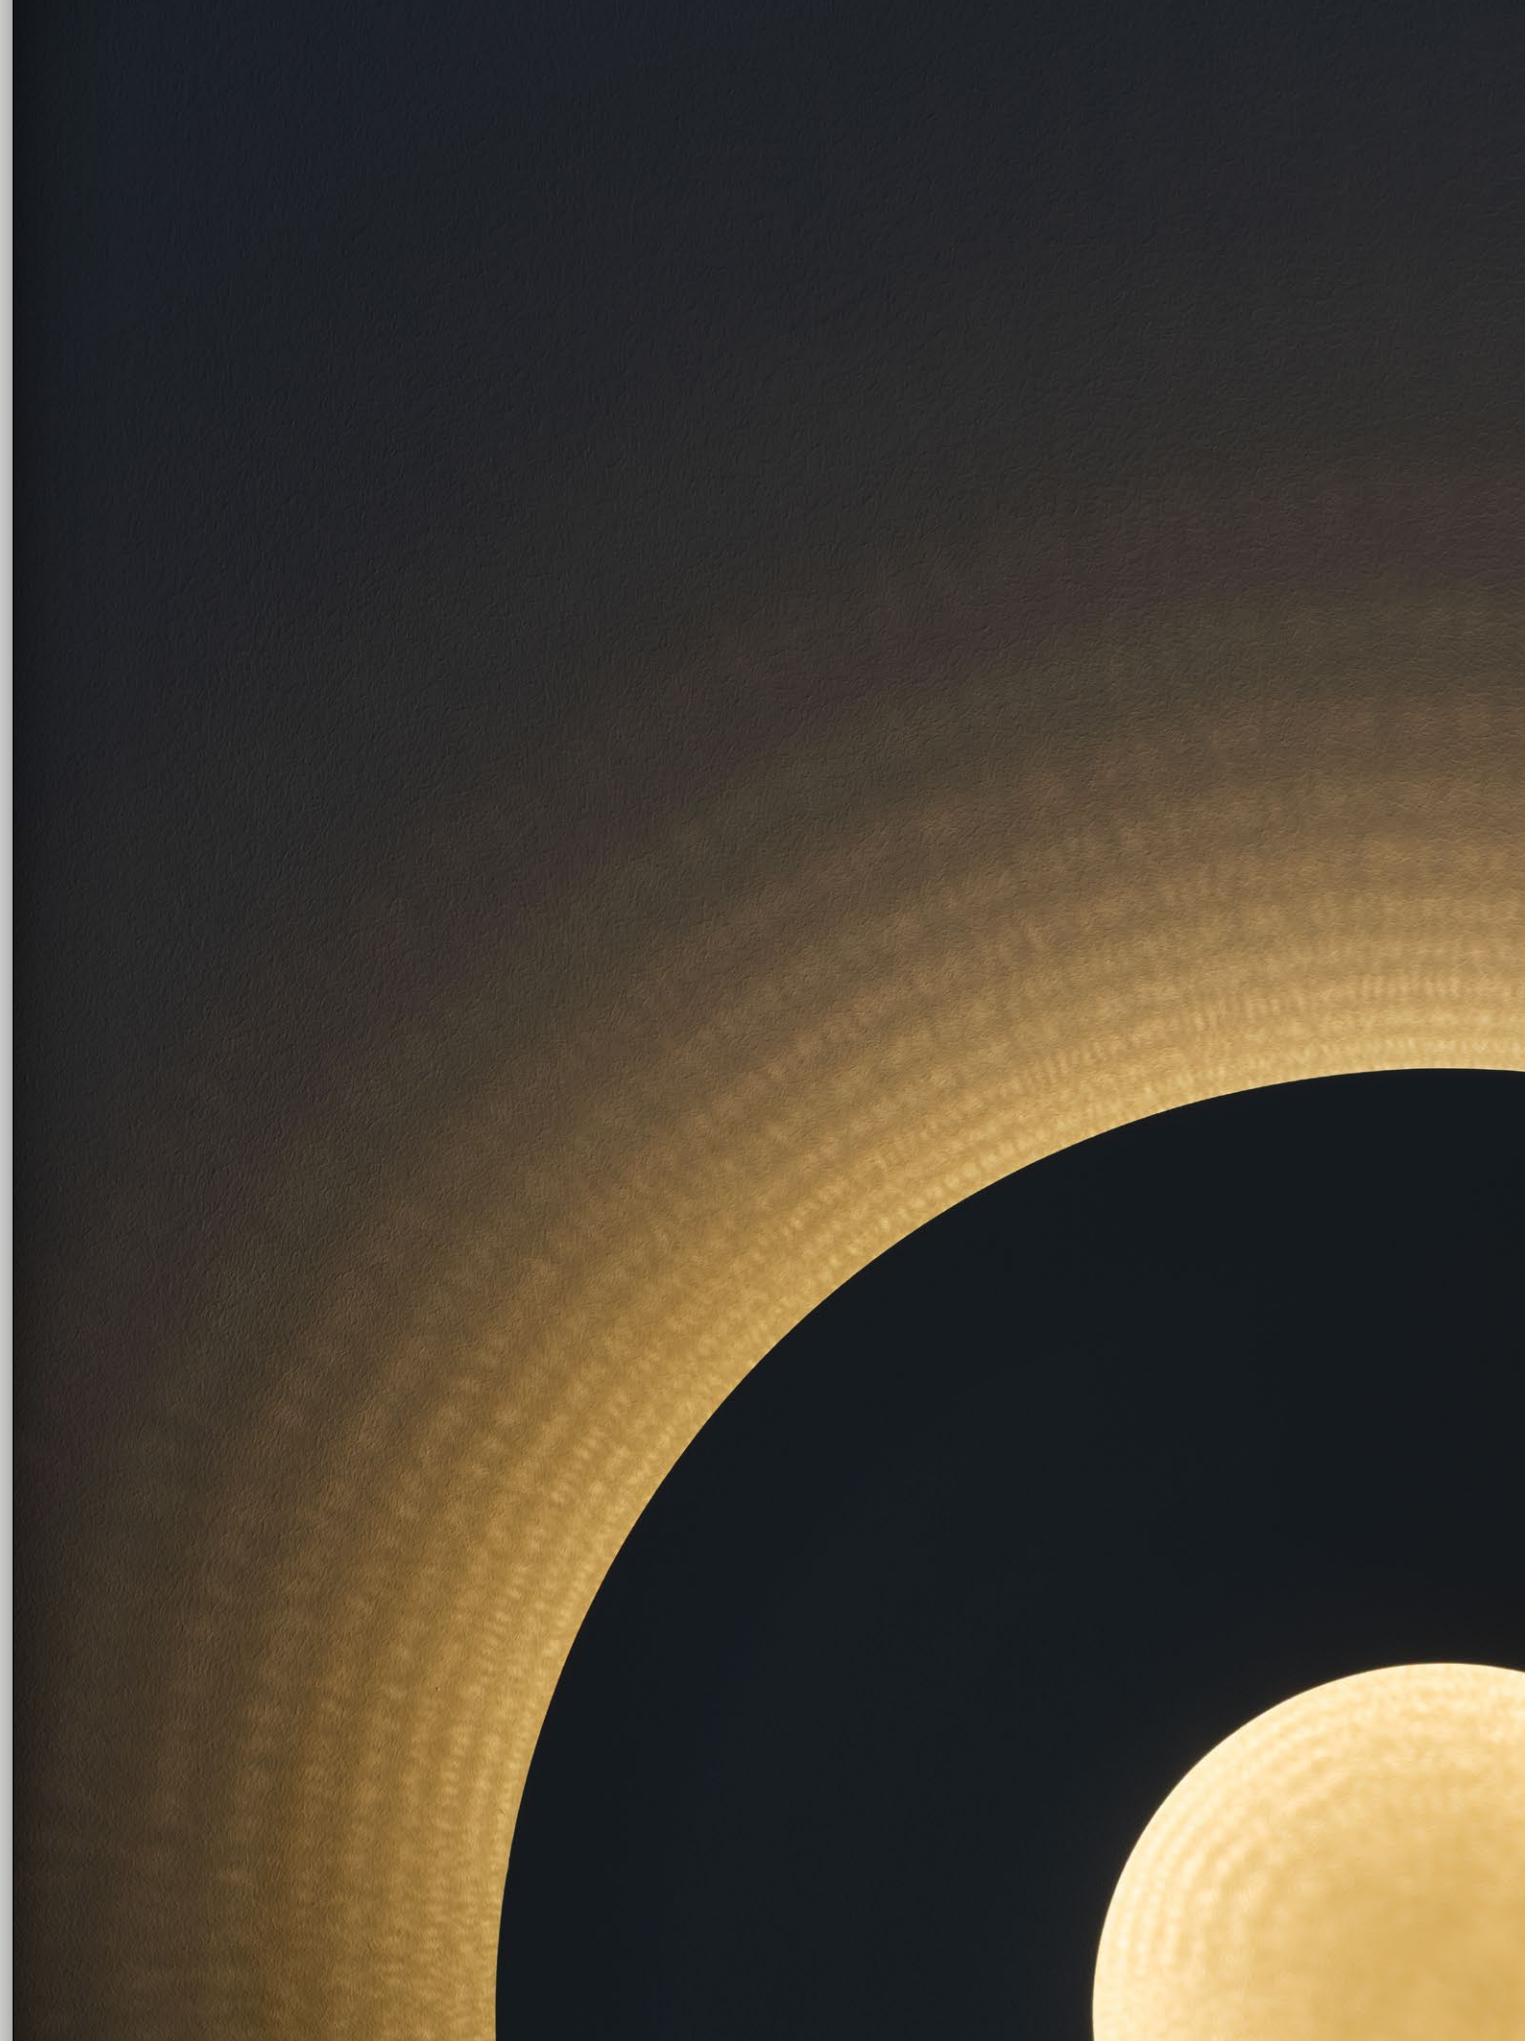

[ES] Especializadas en el entorno del contract hotelero, las diseñadoras del estudio PF1 traen al diseño de producto la experiencia en creación de piezas especiales para cada ambiente. La suma de este equipo ha dado como resultado numerosos reconocimientos a nivel nacional e internacional por su trabajo en hotelería.

[ES] Rafa Alonso, maestro de formación y vocación, experimenta con las formas y piensa con las manos. Su trabajo creativo, arraigado en la artesanía y el arte contemporáneo, transforma materiales cotidianos en piezas expresivas. Su compromiso social lo llevó a crear Lea, un proyecto con impacto solidario. La emoción, la sencillez y la pureza de sus formas hacen de su diseño una apuesta única para a-emotional light.

Updated collection

# Agasallo

[EN] Agasallo, which means 'gift' in Galician, is a collection designed by Héctor Serrano. Its shapes and its hand-painted design generate unique light effects that are projected into the space, creating a singular atmosphere. Available in four pendant sizes that can be combined at different heights, creating multiple compositions, Agasallo also features new floor and table versions.

[ES] Agasallo, que significa “regalo” en gallego, es una colección diseñada por Héctor Serrano. Sus formas y su pintado a mano generan efectos de luz únicos que se proyectan en el espacio creando una atmósfera singular. Disponible en cuatro medidas de colgante que se pueden combinar a diferentes alturas, creando múltiples composiciones, Agasallo cuenta además con nuevas versiones de pie y mesa.

# Aimei

<sup>[EN]</sup> Aimei is the most sculptural pendant lamp by Arturo Álvarez. A piece that stands out for its unique design, composed of a luminous sphere wrapped in an ash wood frame, creating a perfect balance between light and form. Its wooden structure, inspired by the backbone of the universe, generates a gentle sense of movement that filters the light in a subtle and fluid way. Each piece is handcrafted by skilled woodworkers, with careful attention to detail to highlight the warmth and natural beauty of the wood.

<sup>[ES]</sup> Aimei es la lámpara colgante más escultórica de Arturo Álvarez. Una pieza que destaca por su diseño único y que se compone de una esfera luminosa envuelta por un armazón de madera de fresno, creando un equilibrio perfecto entre luz y forma. Su estructura de madera, inspirada en la espina dorsal del universo, genera un suave dinamismo que filtra la luz de manera sutil y fluida. Cada una de sus piezas está elaborada a mano por ebanistas, cuidando cada detalle para resaltar la calidez y nobleza de la madera.

Updated collection

# Anel

<sup>[EN]</sup> The circular distribution of light ensures that Anel offers adequate lighting efficiency for this type of product, while the surface mounting makes it easy to install. The two steel mesh cylinders that surround the light source form a set of planes, diagonal lines, textures and concentric shapes that make Anel a piece with its own aesthetic and elegance. Available as a pendant or ceiling light, Anel now comes in a new 90 cm diameter version.

<sup>[ES]</sup> La distribución circular de la luz hace que Anel ofrezca una eficiencia lumínica adecuada para esta tipología de producto, mientras que el montaje sobre superficie facilita su instalación. Los dos cilindros de malla de acero que rodean la fuente de luz conforman un juego de planos, líneas diagonales, texturas y formas concéntricas que hacen de Anel una pieza con estética propia y elegancia. Disponible en formato colgante o de techo, Anel dispone ahora de una nueva versión de 90cm de diámetro.

New collection

# Baleira

[EN] Baleira —meaning “empty” in Galician— is a steel mesh reinterpretation of the geometric and timeless form of the classic dome, radically transforming its character and turning it into something ethereal, almost intangible. The perimeter LED light source enhances the sense of emptiness and visual lightness, creating a subtle and delicate presence. This light manifests both as direct illumination over the table and as a generous ambient glow, which, together with the clever adjustment of the dome’s angle, significantly influences the distribution of light in the space.

[ES] Baleira —*vacía* en gallego— es una reinterpretación en malla de acero de la forma geométrica y atemporal de la cúpula clásica, lo que cambia radicalmente su carácter convirtiéndola en algo etéreo, casi intangible. La fuente de luz LED perimetral refuerza la sensación de vacío y ligereza visual, creando una presencia sutil y delicada. Esta luz se materializa tanto en una iluminación directa sobre la mesa como en una iluminación ambiental generosa, lo que, junto a una ingeniosa regulación del ángulo de la cúpula, influye notablemente en la distribución de la luz en el espacio.

BI04  
Ø45x18 cm  
Ø17.7x7.1 in

[EN] The lamp's formal simplicity and material lightness make the object almost disappear, giving prominence to the light it emits.

[ES] La simplicidad formal y la ligereza material de la lámpara hacen que el objeto casi se desvanezca, dando protagonismo a la luz que emite.

|          |                                                                         |

# Blossom

[EN] The Blossom table lamp is an object that opens up, but is also delicate and fleeting. Its asymmetrical shape and color changes depending on the observer's point of view, as do its weaves and wefts. Blossom is a design intended to produce elegant lighting effects in any type of environment.

[ES] Esta lámpara de mesa se presenta como un elemento que se abre, pero es, al mismo tiempo, delicado y fugaz. Su forma asimétrica y color cambia según el punto de vista, al igual que sus tramas. Blossom es un diseño hecho para crear efectos lumínicos elegantes en cualquier tipo de ambiente.

# Blum

BL04  
Ø40x40 cm  
Ø16x16 in

[EN] Steel wire is incorporated into our repertoire of materials in the design of this collection. By wrapping it around itself, spheres are created and then joined into ethereal, almost transparent volumes, endowing this lamp with a subtle beauty. The white finish accentuates the delicacy of a piece handcrafted from a material as cold as steel, which in this design seems to bloom with life.

[ES] El hilo de acero se incorpora a nuestro repertorio de materiales en el diseño de esta colección. Al enrollarlo sobre sí mismo, se crean esferas que se unen en volúmenes etéreos, casi transparentes, lo que dota a esta lámpara de una belleza sutil. El acabado en blanco acentúa la delicadeza de una pieza generada a mano a partir de un material tan frío como el acero, que en este diseño parece florecer lleno de vida.

New collection

# Brétema

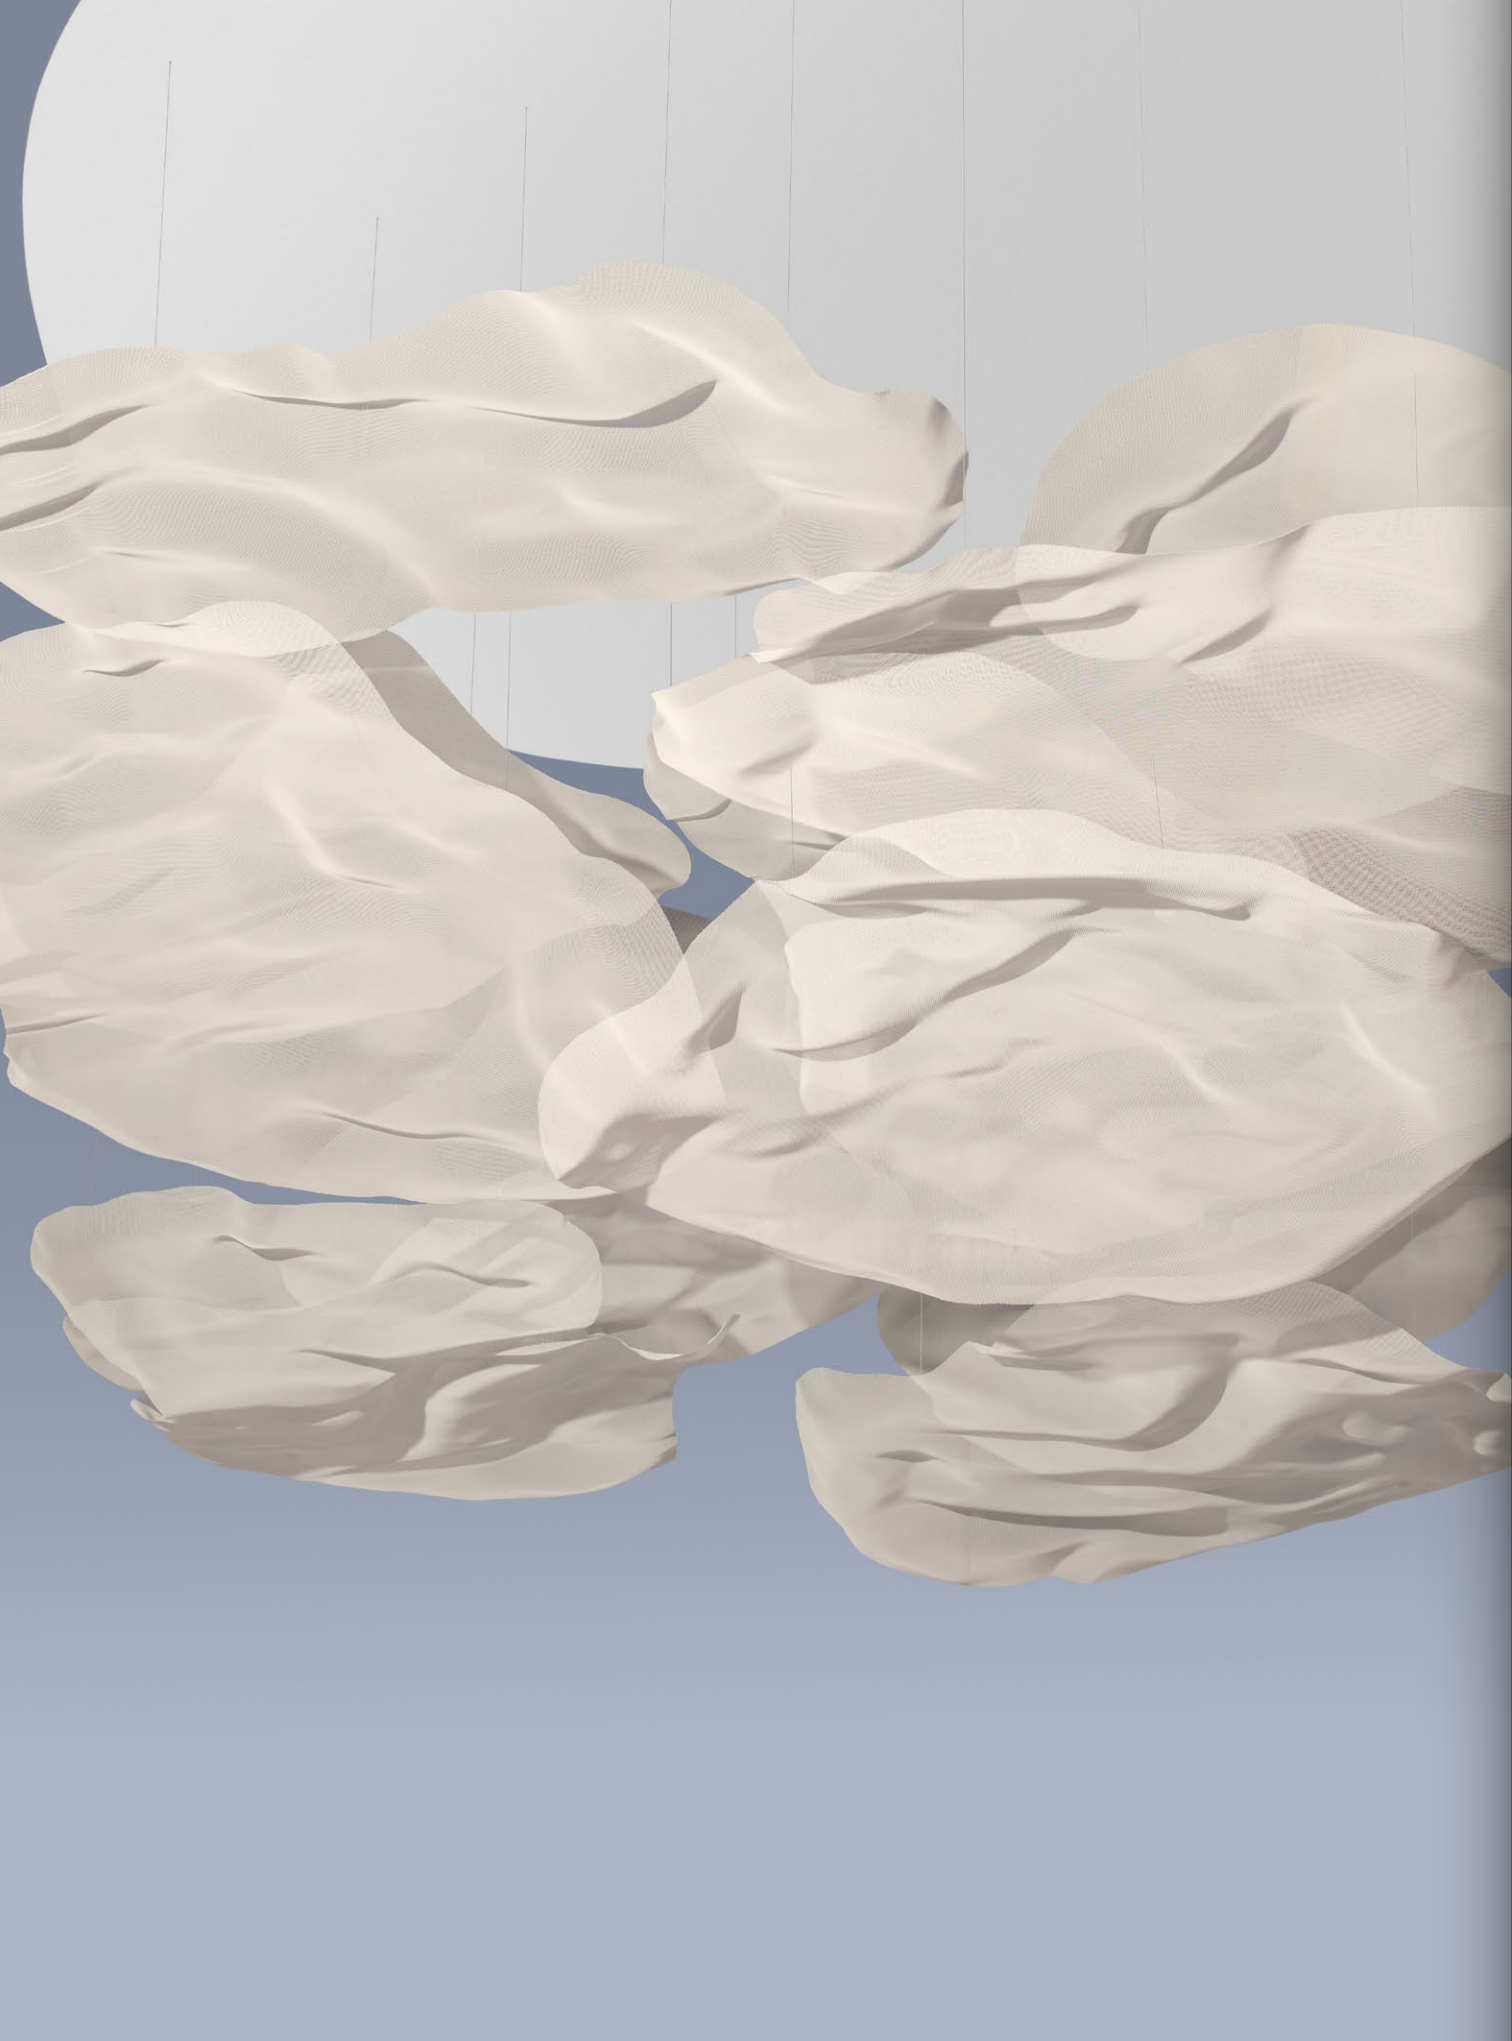

[EN] Inspired by the superimposition of clouds and the Atlantic sky, the a·emotional light design team has developed this compositional system for installations. The combination of layers and superimposed volumes, together with the lighting that bathes the ensemble, make Brétema a unique proposal for carrying out limitless configurations with a high degree of expressiveness.

[ES] Inspirados en la superposición de nubes y el cielo atlántico, el equipo de diseño de a·emotional light ha desarrollado este sistema compositivo para instalaciones. El juego de capas y volúmenes superpuestos, combinado con la iluminación que baña el conjunto, hacen de Brétema una propuesta singular para llevar a cabo configuraciones sin límites con un alto grado de expresividad.

BR04L

# Cabana

[EN] The Cabana lamp aims to offer a sense of seclusion and shelter similar to the Galician cabins, or cabanas, that were used to protect raw materials or as a shelter against inclement weather. The lampshade is made using the 3D knitting method, a technique commonly used in the textile industry but seldom applied to lighting. This makes it possible to create seamless lampshades in three dimensions without producing excess fabric.

[ES] La lámpara Cabana busca ofrecer una sensación de recogimiento y cobijo similar a las cabanas gallegas que servían como estructura de protección de materias primas o como cobijo ante las inclemencias meteorológicas. Es una lámpara creada mediante el método de confección de punto 3D para la fabricación de su pantalla, comúnmente utilizado en la industrial textil pero poco aplicado en la iluminación.

# Cambo

[EN] Inspired by nature, Cambo is designed based on the natural growth of plants, the branching and bifurcation of trees. Cambo consists of a beech wood structure with a water-based varnish that reveals the material in its most natural form. Within this unique structure, a painted stainless steel mesh lampshade is introduced, housing the integrated LED light source.

[ES] Con la naturaleza como inspiración, Cambo se ha diseñado basándose en el crecimiento natural de las plantas, la ramificación y la bifurcación de los árboles. Cambo está formada por una estructura de madera de haya con un barniz al agua que permite mostrar el material en su forma más natural. En esta peculiar estructura se introduce la tulipa de malla de acero inoxidable pintada que alberga la fuente lumínica LED integrada.

# Kala

KL06  
22x14x24 cm  
8.7x5.5x9.4 in

[EN] Kala is a delicate wall lamp handmade in painted stainless steel mesh. Its irregular volume, designed by Arturo Álvarez, recalls the changing patterns of the sand in the great dunes, horizontal lines marked by the folds of a material that plays at covering the light, allowing it to reflect indirectly on the wall.

[ES] Kala es un delicado aplique hecho a mano en malla de acero inoxidable pintada. Su volumen irregular diseñado por Arturo Álvarez, recuerda los dibujos cambiantes de la arena en las grandes dunas, líneas horizontales marcadas por los pliegues de un material que juega a cubrir la luz, permitiendo que se refleje indirectamente en la pared que ocupa.

# Kite

[EN] The Kite collection, designed by Arturo Álvarez, is made up of curved planes that seem to travel along walls and ceilings carried by the wind. Luminaires with a light appearance despite their dimensions. Kite large is a handmade wall lamp that, combined with other wall lamps of different sizes, allows the creation of original compositions. Kite is inspired by the kites in the sky, which fill the space with a cheerful and warm light.

[ES] La colección Kite, diseñada por Arturo Álvarez, está formada por planos curvados que semejan viajar por paredes y techos llevados por el viento. Luminarias de apariencia liviana a pesar de sus dimensiones. Kite es un aplique hecho a mano que, combinado con más lámparas de pared de diferentes tamaños, permite crear originales composiciones. Kite está inspirada en las cometas en el cielo, que llenan el espacio de una luz alegre y cálida.

New collection

# Lisa

[EN] The Lisa wall lamp collection responds to the need to advocate for simplicity and everyday life. With a restrained expressiveness through the texture generated by the painted steel mesh and details in brushed steel, the collection was born with the idea of offering a basic element to any space and is composed of two sizes in different heights. A welcoming light and a simple shape that follow us in our daily lives.

[ES] La colección de apliques Lisa obedece a la necesidad de abogar por la simplicidad y cotidianeidad. Con una expresividad contenida a través de la textura generada por la malla de acero pintada y unos detalles en acero cepillado, la colección nace con la idea de ofrecer un elemento básico a los espacios y se compone de dos tamaños de diferentes alturas. Una luz acogedora y una forma sencilla que nos acompañan en nuestra vida cotidiana.

# Nebra

<sup>[EN]</sup> Nebra captures the rising summer sun through a fine veil of mist. A light that harkens back to the Atlantic dawn at a time when the first mists herald the autumn to come. A horizontal glow like the line of the horizon that becomes nebulous as it rises, producing a vaporous, ethereal atmosphere.

<sup>[ES]</sup> Nebra capta el amanecer estival a través de un fino velo de niebla. Una luz característica del albor Atlántico en una época en la que las primeras nieblas anticipan el otoño. Un resplandor horizontal a modo de línea de horizonte que según se eleva se va degradando y generando una atmósfera etérea y vaporosa.

[EN] Nebra, mist in Galician, is an allegory of the summer mornings of the Atlantic Ocean.

[ES] Nebra, niebla en gallego, es una alegoría de las mañanas veraniegas del océano Atlántico.

62.9x1.2x11.8 in

[EN] This hanging design is a linear piece with horizontal proportions that combines two types of lighting: direct lighting that projects down from above and a second indirect ambient lighting that is subdued and suggestive. The light emitted across its surface gives Nebra a weightless appearance, a stark contrast with the expressive sobriety of the piece when turned off. It is made from a sequence of pieces of consistent height and variable length, making it flexible and easy to combine in a series.

[ES] Este diseño colgante es una pieza lineal de proporciones horizontales que aúna dos tipos de iluminación: una directa que proyecta de forma cenital y una segunda indirecta que aporta una iluminación ambiental tenue y sugerente. La emisión lumínica en toda la superficie le confiere un aspecto ingrávido, algo que contrasta con la sobriedad expresiva de la pieza en estado apagado. Está compuesta por una secuencia de piezas de altura constante y longitud variable, un gesto que aporta flexibilidad y capacidad combinatoria en serie.

# Nevo

[EN] Nevo is a collection that reflects the extreme malleability of painted stainless steel mesh better than any other. The unrepeatable organic shapes of the Nevo, with its handmade curves, make each of the lamps unique, different from all the others. They are volumes that seem to be alive, in constant evolution and movement, both for their shape and for the folds through which the light spreads.

|           |                                                                          |
|-----------|--------------------------------------------------------------------------|
| Diseño    | Arturo Álvarez, 2007                                                     |
| Material  | Malla de acero inoxidable pintado                                        |
| Tipología | Composición (p.248) · Suspensión (p.224)<br>Mesa (p.192) · Pared (p.260) |

[ES] Nevo es una colección que refleja la extrema maleabilidad de la malla de acero inoxidable pintada mejor que ninguna. Las irrepetibles formas orgánicas de la Nevo, con sus curvas hechas a mano, convierten a cada una de las lámparas en única, diferente a todas las demás. Son volúmenes que parecen estar vivos, en constante evolución y movimiento, tanto por su forma como por los pliegues por los que la luz se extiende.

[EN] A set composed of three pieces of different diameters and heights, allowing for multiple compositions and featuring a formal language that recalls the most primitive and rudimentary stone carving. Originally crafted in Galician granite, using quarry offcuts and thus promoting sustainability through material reuse, the collection now expands its finishes with a new version in black granite. Additionally, the family grows with a reinterpretation of the original piece in ceramic, available in three sizes and three colours, while preserving the simplicity and honesty of natural materials.

[ES] Un conjunto formado por tres piezas de diferentes diámetros y alturas, que permiten una múltiples composiciones y que emplean un lenguaje formal que remite a la talla lítica más primigenia y rudimentaria. Originalmente realizada en granito gallego, aprovechando descartes de cantera y contribuyendo así a la sostenibilidad desde la materia, la colección amplía ahora sus acabados incorporando una nueva versión en granito negro. Además, la familia crece con una reinterpretación en cerámica de la pieza original, disponible en tres tamaños y tres colores, manteniendo la sencillez y honestidad de los materiales naturales.

# Tempo

[EN] Tempo is a pendant lamp from the collection with the same name designed by Arturo Álvarez. Made of painted stainless steel mesh, it is handmade in Spain. This material, crafted in fine pleats, forms two overlapped layers that create two different lamps full of dynamism. Andante and Vivace, two liveliness shapes born from one.

[ES] Tempo es una lámpara colgante de la colección homónima diseñada por Arturo Álvarez. Hecha de malla de acero inoxidable pintada, se moldea a mano en España. Dos formas vivas que irradian luz por sus poros con delicadeza. Andante y Vivace, dos formas que parten de una.

[EN] Lamps that capture the superimposition of two moments generated by the same movement with a different tempo.

[ES] Lámparas que plasman la superposición de dos instantes generados por un mismo movimiento con un tempo diferente.

New collection

# Umbra

[EN] The Umbra collection of wall lamps arises from the concern to work with shadow and texture through light. These luminaires highlight the value of penumbra in the face of the excess of illumination that surrounds us. The lamp is defined by simple geometries and the interplay of chiaroscuro produced by the juxtaposition of materials and matter.

[ES] La colección de apliques Umbra surge de la inquietud de trabajar con la sombra y la textura a través de la luz. Son luminarias que ponen en valor la penumbra ante el exceso de iluminación que nos rodea. La lámpara queda definida mediante geometrías sencillas y el juego de claroscuros producidos por la yuxtaposición de materiales y materia.

## 2 Painted stainless steel thread

### Hilo de acero Inoxidable

The stainless steel thread interlaced and embroidered on itself, creates random, light, seemingly fragile volumes, but durable thanks to the sturdiness that paint finish brings.

Colors & codes: White (B).  
Collections: Blum, Pili.

## 3 Galvanized steel mesh

### Malla de acero galvanizado

The application of galvanized steel mesh is another example of a different use of the material. The malleability of this material and its hollow light allows it, through painting processes, to become a material with a delicate appearance but of high quality and durability.

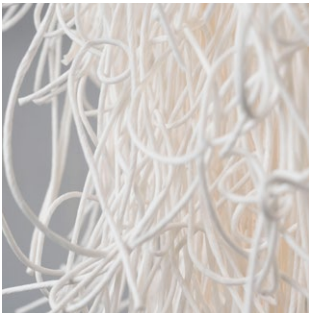

Color & code: White (B).  
Collection: Fluo.

El hilo de acero inoxidable entrelazado y embrollado sobre sí mismo, crea volúmenes aleatorios, ligeros, aparentemente frágiles, pero resistentes gracias a la dureza que le aporta la pintura.

Colores y códigos: Blanco (B).  
Colecciones: Blum, Pili.

La utilización de la malla de acero galvanizado es otro ejemplo de descontextualización de un material. La maleabilidad de este material y su hueco de luz permite que, a través de procesos de pintado, se convierta en un material con apariencia delicada pero de alta calidad y durabilidad.

Color y código: Blanco (B).  
Colección: Fluo.

Solo para EE.UU., estos artículos cumplen con el estándar UL para luminarias bajo el archivo UL de a-emotional light

For North America, these items comply with the UL standard for luminaires under the UL file of a-emotional light

Para América del Norte, estos artículos cumplen con el estándar UL para luminarias bajo el archivo UL de a-emotional light

Product marking used for products being placed on the market in Great Britain (England, Scotland and Wales)

Marcado de producto utilizada para los productos que se comercializan en Gran Bretaña (Inglaterra, Escocia y Gales)

The luminaires made of painted stainless steel mesh can be chosen by RAL or NCS code (see conditions)

Las luminarias realizadas en malla de acero inoxidable pintada podrán elegirse el color mediante código RAL o NCS (ver condiciones).

Awarded by the International Interior Design Association (IIDA) and Hospitality Design magazine.

Premio otorgado por International Interior Design Association (IIDA) y la revista Hospitality Design

Awarded by Interior Design Magazine, New York

Premio otorgado por la revista Interior Design de New York

Awarded by the Chicago Athenaeum Museum of Architecture and Design

Premio otorgado por el Chicago Athenaeum Museo de Arquitectura y Diseño

Awarded by Industrial Design Association of the FAD (ADI-FAD), Barcelona

Premio otorgado por la Asociación de Diseño Industrial del FAD (ADI-FAD), Barcelona

Double insulation and/or reinforced insulation in every part and without ground devices

Doble aislamiento y/o aislamiento en cada parte y sin toma de tierra

Luminaire to use with tungsten halogen bulbs with own protection shield

Luminaria diseñada para usar lámparas halógenas de wolframio con pantalla de protección propia

The device is not suitable for installation on normally inflammable surface

Aparato no adaptado para la instalación en superficies normalmente inflamables

Available with LED built-in technology

Disponible con tecnología LED integrada

Professional standard bidirectional regulation interface for lighting equipment control

Interfaz profesional estándar de regulación bidireccional para control de equipos de iluminación

Regulation for small installations without adding additional control wiring.

Regulación para instalaciones pequeñas sin necesidad de añadir cableado adicional de control. PHASE CUT - 230V

Regulation of luminous flux between 0 and 10V (1-100%) through an analog signal. Compatible with TRIAC (forward-phase or leading-edge), ELV (reverse-phase or trailing edge) - only at 120Vac

Regulación de flujo lumínico entre 0 y 10V (1-100%) a través de una señal analógica. Compatible con TRIAC (fase directa o borde de ataque), ELV (fase inversa o borde de salida).

Available for outdoor IP64

Disponible para exterior IP64

According to Americans with Disabilities Act

Ecodesign standards for lighting products are mandatory for all manufacturers and importers who intend to market their products in the EU.  
As of September 1, 2021, Regulation (EU) 2019/2020 establishing eco-design requirements for light sources and independent control mechanisms repeals and replaces Regulations (EC) No 244/2009, (EC) No 244/2009, (EC) No 245/2009 and (EU) No 1194/2012.  
Las normas de diseño ecológico para los productos de iluminación son obligatorias para todos los fabricantes e importadores que pretendan comercializar sus productos en la UE.  
Desde el 1 de septiembre de 2021, el Reglamento (UE) 2019/2020 por el que se establecen requisitos de diseño ecológico para las fuentes luminosas y los mecanismos de control independientes deroga y sustituye los Reglamentos (EC) No 244/2009, (CE) n.º 244/2009, (CE) n.º 245/2009 y (UE) n.º 1194/2012 .

To Lucía Viyuela Ballesteros, who always lights our way.  
Para Lucía Viyuela Ballesteros, que sempre ilumina o noso camiño.
