AT FIVE

The moment
when *light*
reshapes a
space, turning
the expected
into the
memorable.

We collaborate with architects
and designers to enhance spaces
through lighting that honors form,
emotion, and craft.

PLUM COLLECTION

LIGHTING WITH PURPOSE

Ay Illuminate celebrates natural materials, biophilic design, and global craftsmanship. Using renewable resources like bamboo and cotton, their “Zero Waste” fixtures honor purity and sustainability. Beyond materials, they empower artisans in remote villages, supporting communities and preserving cultural heritage. Each piece bridges modern design with timeless handmade luxury.

ILI ILI COLLECTION

QUALITY MEETS VERSATILITY

Grupa's modular lighting adapts to change, prioritizing reconfiguration over replacement. Handmade in Croatia, their fixtures reflect over six decades of lighting expertise. Rejecting mass production, skilled artisans meticulously craft, paint, and assemble each piece, ensuring exceptional quality. This approach preserves tradition while delivering lighting with a human touch.

MASTERING ENGINEERING AND CARBON SOLUTIONS

Zero's minimalist philosophy embraces sustainability as a core value. Guided by five UN SDGs — Reuse, Energy Efficiency, Eco Materials, Energy Production, and Sustainable Transport — they take measurable action. With over 80% of production within 124 miles of Nybro, Sweden, they minimize their carbon footprint while supporting local economies.
