B.lux

We are manufacturers

En B.lux somos fabricantes de luminarias de diseño contemporáneo desde 1979. Nuestros productos se distribuyen en 65 países de los cinco continentes. Esta destacada presencia internacional es posible gracias al riguroso control de los procesos de fabricación y distribución del que gozan nuestras luminarias. Apostamos por las relaciones largas y duraderas basadas en la confianza entre fabricante y cliente. Nuestro éxito se fundamenta en un crecimiento pausado, sostenido en el tiempo, con pasos seguros. No hay secretos, sino el resultado natural de nuestra dedicación y talento de nuestro equipo para darte el mejor servicio.

In B.lux we are manufacturers of contemporary design lamps since 1979. Our products are distributed in 65 countries on five continents. This outstanding international presence is possible thanks to the rigorous control of the manufacturing and distribution processes to which we subject our luminaires, allowing them to meet and exceed the most demanding quality standards. We are committed to long-lasting relationships based on trust between manufacturer and customer. Our success is based on a slow growth, sustained over time, which advances with secure steps. There are no secrets – this is the natural result of our team's dedication and talent focused on offering the best service.

Crosshatch

by
Brad Ascalon

**Decorative
lighting**

Crosshatch está formado por una estructura reticular metálica en tres formatos (S/M/L) disponibles en versión techo y pared y dos formatos (M/L) en versión suspensión. Gracias a su cableado interno, se pueden combinar entre ellos para crear múltiples composiciones con tan solo una acometida. La ligereza de su estructura permite crear grandes volúmenes sin recargar el espacio. Su mayor atractivo reside, precisamente, en el juego de vacíos y luces que genera allí donde se instala.

Como fuente de luz emplea un LED (18W 1800lm 2700K) regulable por corte de fase, que se aloja en un difusor de vidrio opal blanco de 15 centímetros de diámetro. El conjunto garantiza un óptimo confort visual, así como una ausencia total de deslumbramiento.

La versión a pared ofrece también la posibilidad de incorporar baldas para la colocación de libros o accesorios de decoración.

Crosshatch is made up of a metallic reticular structure in three sizes (S/M/L) available in ceiling and wall versions and two sizes (M/L) for the suspension version. Thanks to its internal wiring, they can be combined to create multiple compositions with just one power supply. The lightness of its structure allows us to create volumes without overloading the space. Its main appeal lies precisely in the game of voids and lights that it generates wherever it is installed.

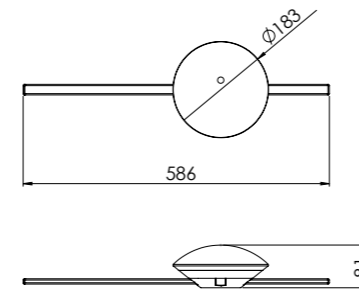

As a light source, it uses a dimmable LED (18W 1800lm 2700K), which is housed in a white opal glass diffuser with a diameter of 15 centimeters. The whole set guarantees optimal visual comfort as well as a complete absence of glare.

The wall version also offers the possibility of incorporating shelves for books or other decorative accessories.

Crosshatch System

by
Brad Ascalon

**Decorative
lighting**

Crosshatch System nos permite ir más allá y crear sistemas totalmente personalizados combinando tubos, fuentes de luz y crucetas simples o dobles a nuestro antojo.

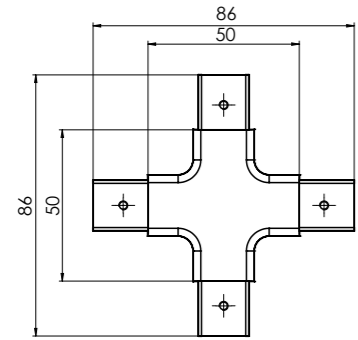

Crosshatch System puede crecer tanto horizontal como verticalmente y los tamaños son totalmente personalizables. Además, podemos crear ángulos para pasar de un sistema de pared a un sistema de suspensión o techo y ajustar así el sistema a las necesidades de nuestro espacio.

Crosshatch System allows us to go further and create fully customized systems by combining tubes, light sources, and single or double crosses according to our preferences.

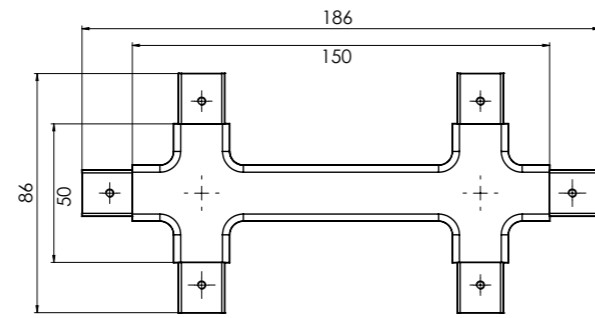

Crosshatch System can expand both horizontally and vertically, and the sizes are completely customizable. Additionally, we can create angles to transition from a wall system to a suspension or ceiling system, adjusting the system to fit the needs of our space.
