# We are manufacturers

En B.lux somos fabricantes de luminarias de diseño contemporáneo desde 1979. Nuestros productos se distribuyen en 65 países de los cinco continentes. Esta destacada presencia internacional es posible gracias al riguroso control de los procesos de fabricación y distribución del que gozan nuestras luminarias. Apostamos por las relaciones largas y duraderas basadas en la confianza entre fabricante y cliente. Nuestro éxito se fundamenta en un crecimiento pausado, sostenido en el tiempo, con pasos seguros. No hay secretos, sino el resultado natural de nuestra dedicación y talento de nuestro equipo para darte el mejor servicio.

In B.lux we are manufacturers of contemporary design lamps since 1979. Our products are distributed in 65 countries on five continents. This outstanding international presence is possible thanks to the rigorous control of the manufacturing and distribution processes to which we subject our luminaires, allowing them to meet and exceed the most demanding quality standards. We are committed to long-lasting relationships based on trust between manufacturer and customer. Our success is based on a slow growth, sustained over time, which advances with secure steps. There are no secrets – this is the natural result of our team's dedication and talent focused on offering the best service.

# Kupetz

**Decorative  
lighting**

Kupetz es un sistema de iluminación tridimensional compuesto por diferentes fuentes de luz y uniones, cuya composición permite adecuar la iluminación a las necesidades de cada espacio.

Se trata de un sistema tubular metálico cuya estructura va siempre en acabado negro mate, que permite combinar cinco tipos de fuente de luz: dos esferas de vidrio blanco opal (100 Glass y 150 Glass), otras dos esferas de vidrio ahumado (100 Glass y 150 Glass) y un proyector con difusor opal (Diffuser). El proyector y la base de las esferas de vidrio están disponibles en tres acabados: negro, cobre, y oro.

El sistema lleva una sola acometida eléctrica y se suspende mediante cables de acero. Es posible realizar composiciones múltiples con una gran cantidad de elementos.

Kupetz is a three-dimensional lighting system made using different lighting sources and linear unions. Its arrangement allows us to adjust the lighting to each space.

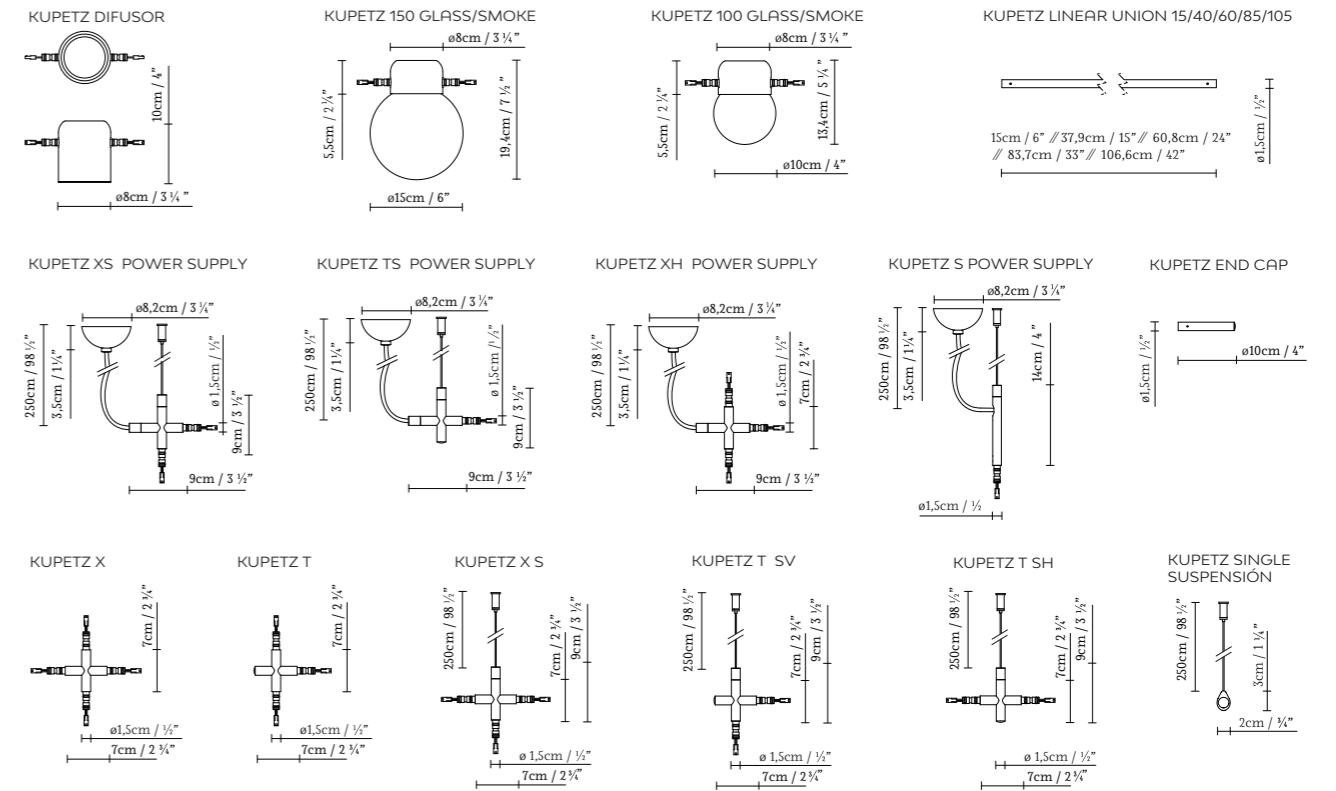

It is a metal tubular system whose structure comes in a matte black finish where you can combine five types of light sources: two opal white glass spheres (100 Glass and 150 Glass), two more smoked glass spheres (100 Glass and 150 Glass) and a spotlight with opal diffuser (Diffuser). The spotlight and the base of the glass spheres come in three different finishes: black, copper and gold.

The system operates on a single electrical connection and is suspended by steel cables, allowing for multiple compositions with a large number of elements.

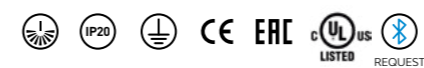

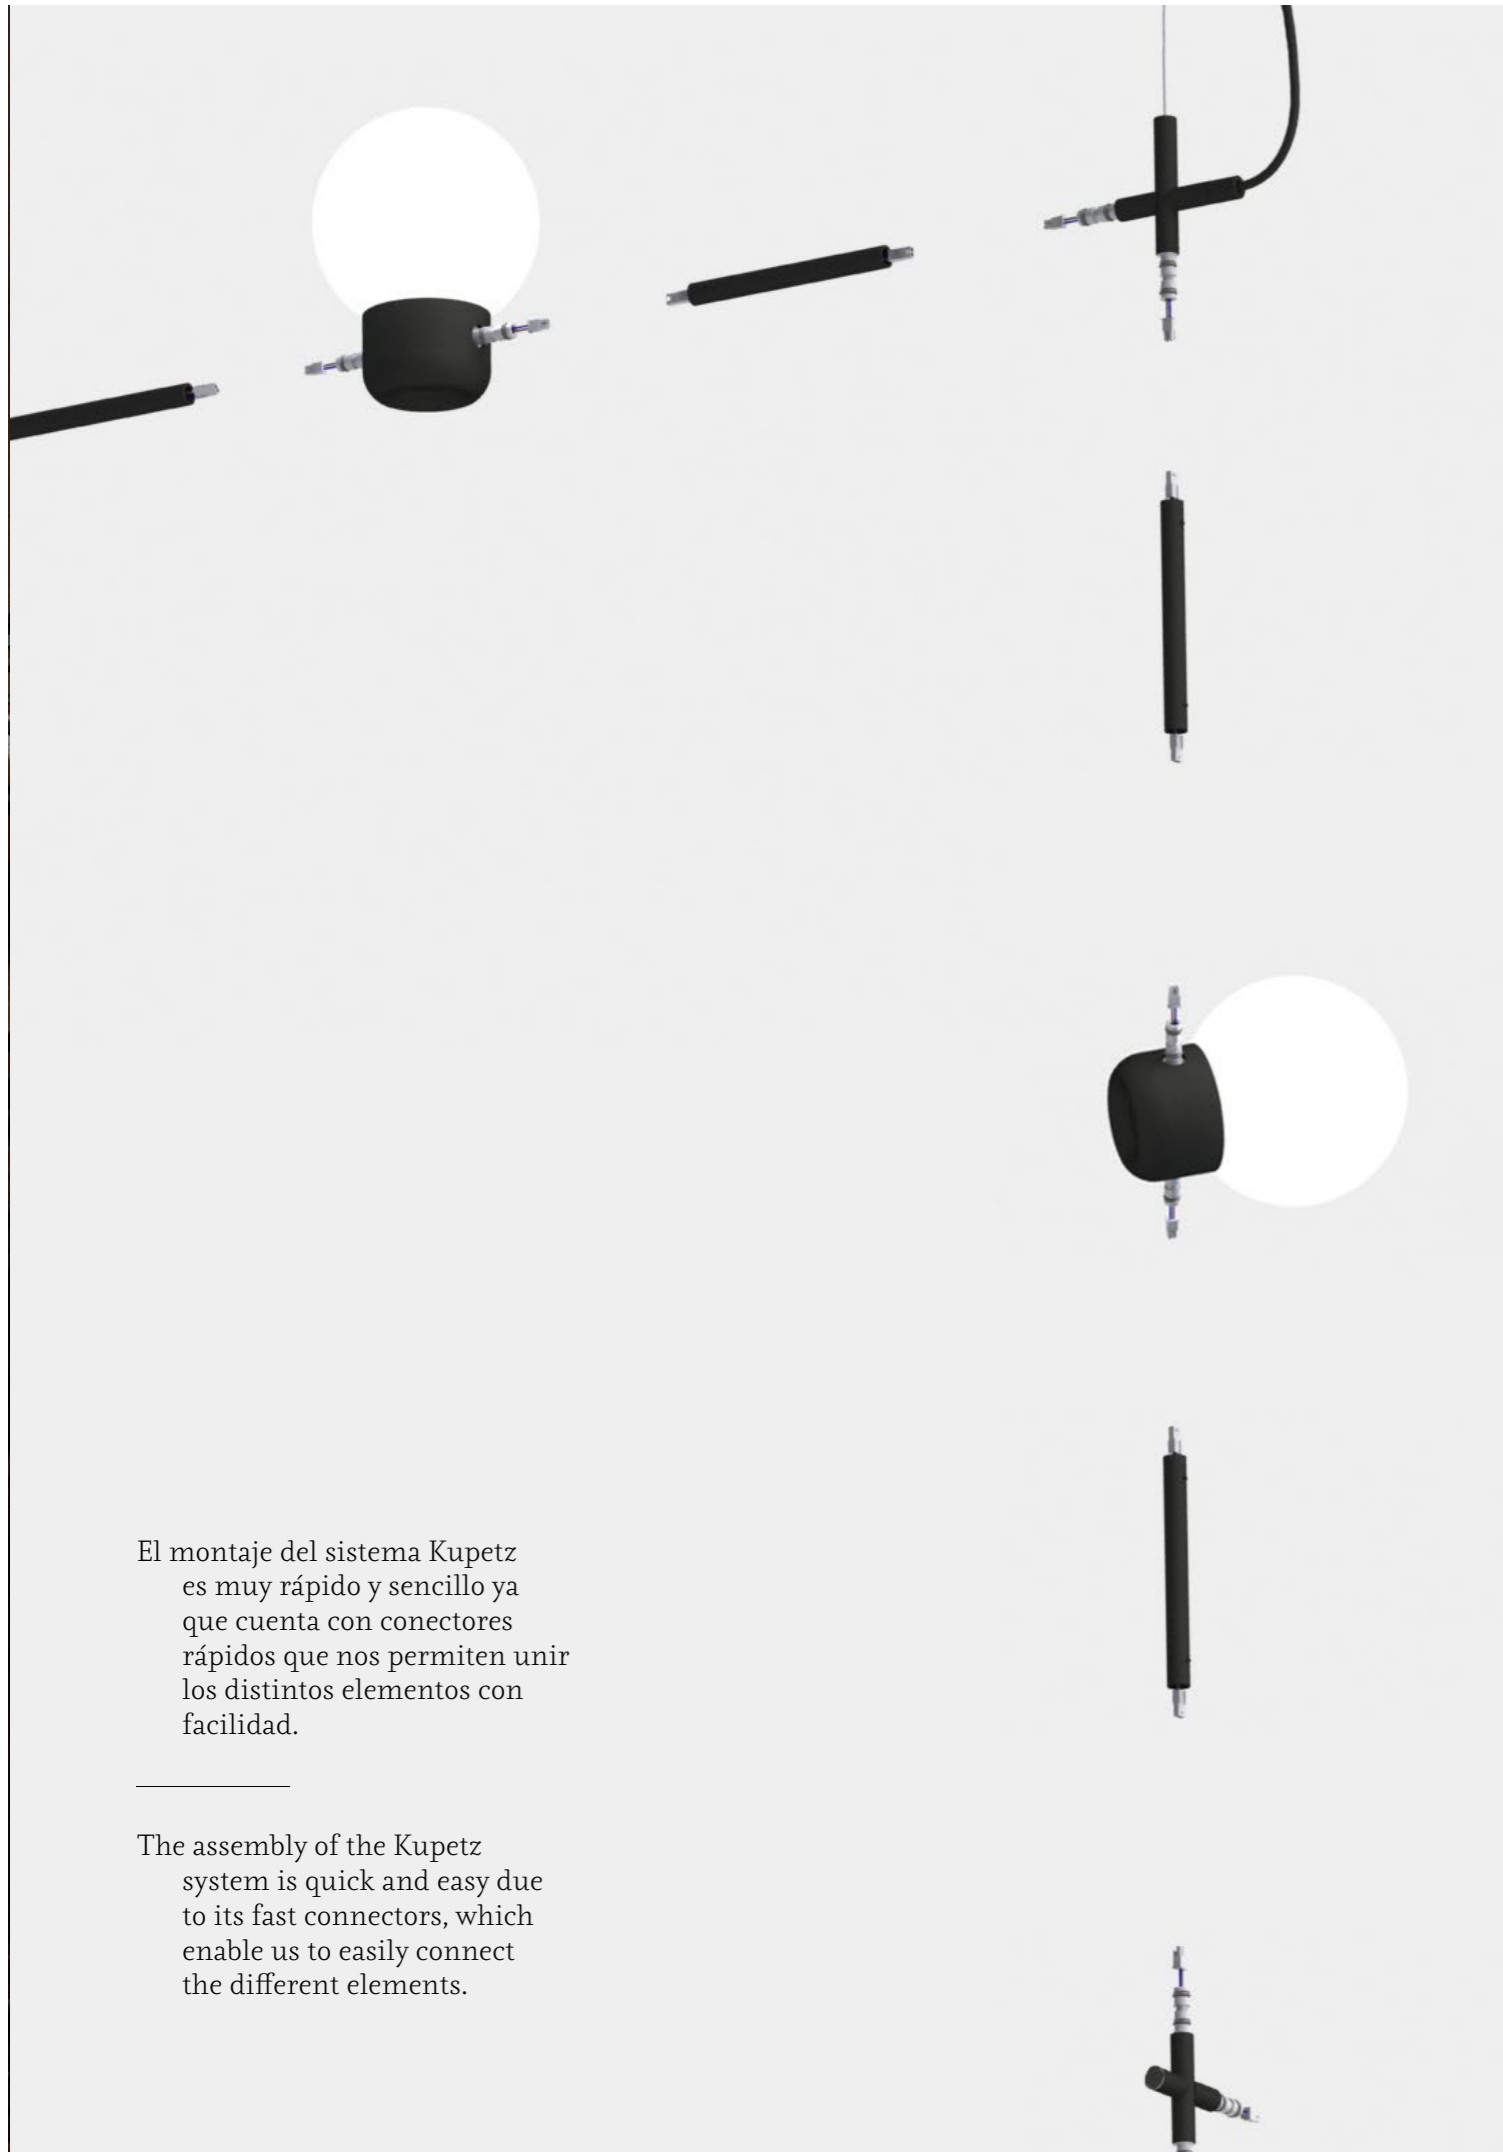

## KUPETZ COMPONENTS

● Black (matte) ● Gold (satin) ● Copper (satin)

El montaje del sistema Kupetz es muy rápido y sencillo ya que cuenta con conectores rápidos que nos permiten unir los distintos elementos con facilidad.

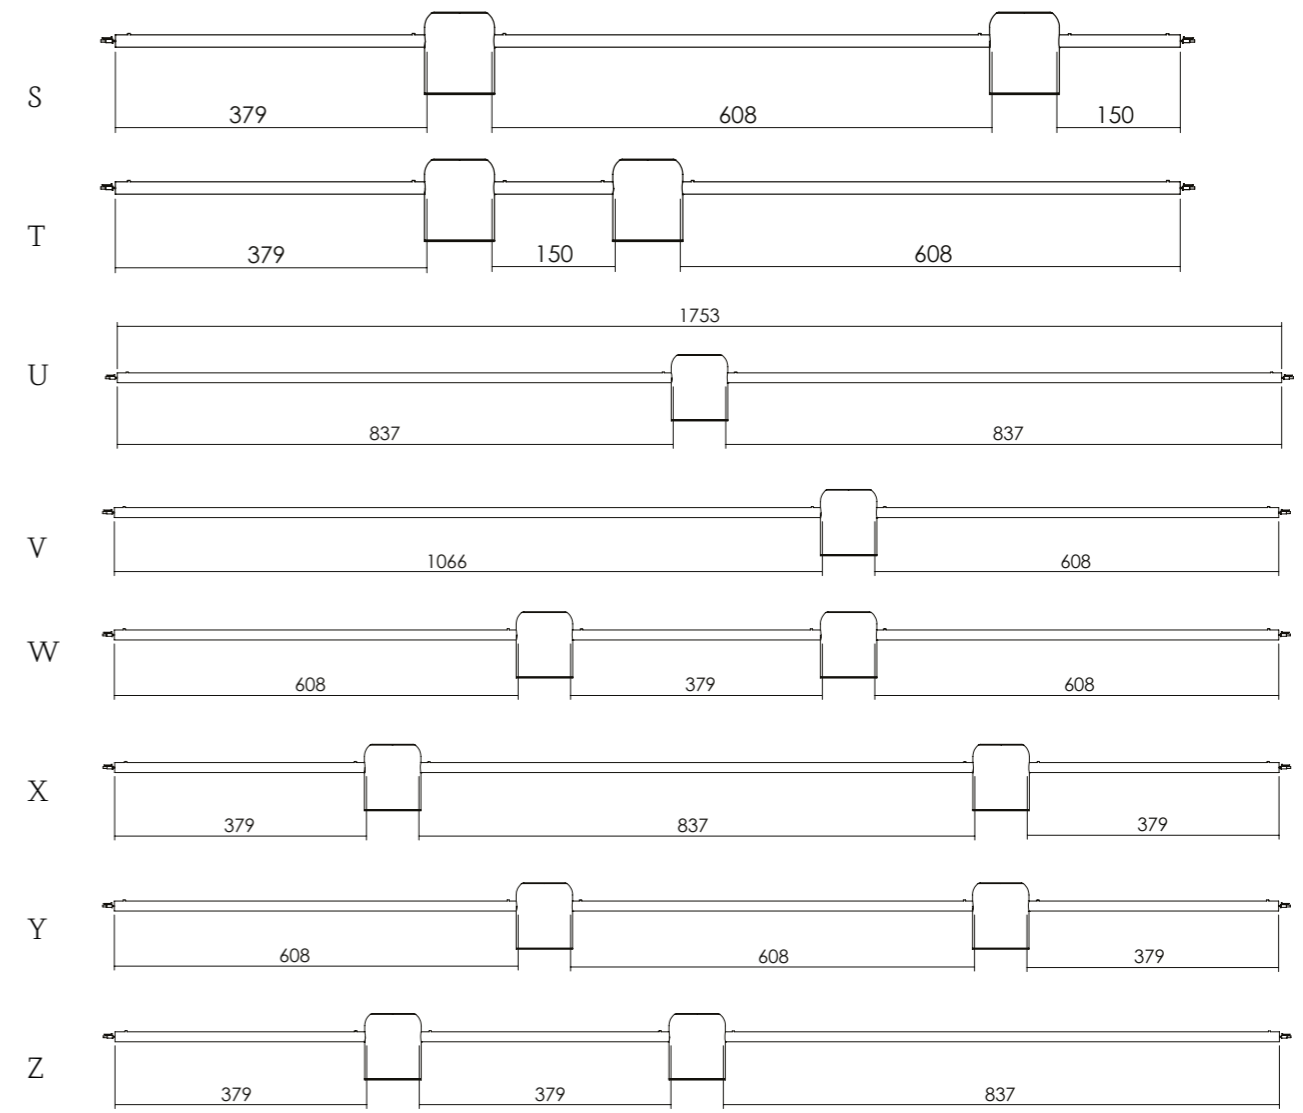

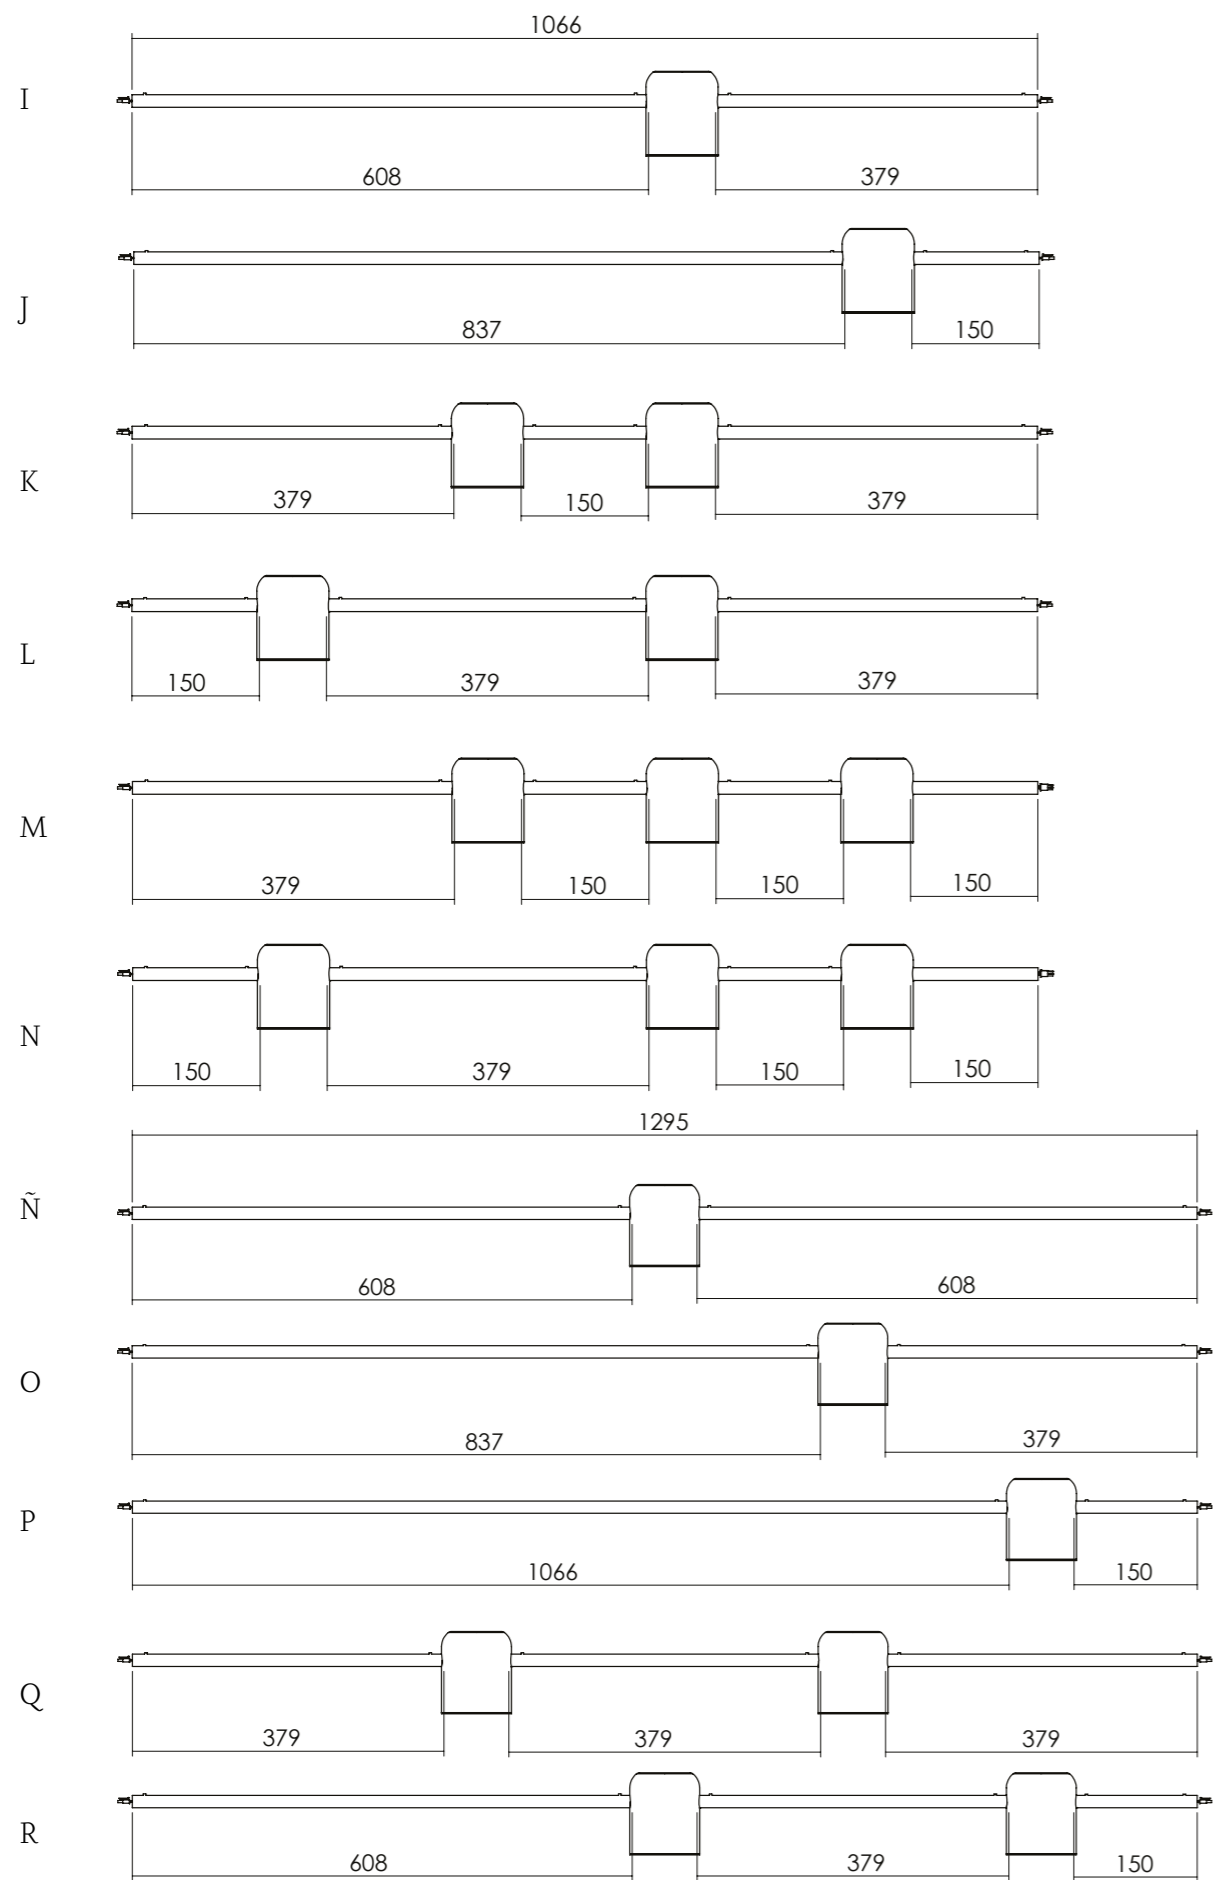

The assembly of the Kupetz system is quick and easy due to its fast connectors, which enable us to easily connect the different elements.
