

cerno®

DESIGNED AND MADE IN CALIFORNIA

BELIEF

With no backyards but access to beaches and idyllic doses of salt and sun, our business story began with the adventures of three boys. Laguna Beach's creative culture and natural environment shaped our professional and aesthetic ideals. Looking back it's now clear that our childhood projects and experiments grew into our best adventure yet: building Cerno.

THE BEGINNING

Cerno founders, 1998. Left to right: Nick Sheridan, Dan Wacholder, Bret Englander.

Our drive and influences come from many different sources. One source that influenced all of us is Daniel's late grandfather, Steve. Steve grew up on a remote homestead where the existence of most objects depended on people's ability to create and fix them. For all of his 101 years, he embodied the saying "where there's a will, there's a way." On the California coast we were raised with this mentality and today we share it with the rest of the Cerno team.

CERNO

- Verb (Latin)

1. To resolve, distinguish, decide, sift, determine, to perceive.

OUR TEAM

Each finished product is a celebration of the inventive minds and industrious hands that brought it to life. Dreams do not manifest themselves; skilled people bring dreams to life. The passion of our steadily growing team and their commitment to the product is inspiring. We are grateful for every individual that is part of our collaborative creative process.

Forma

Silva Giant

Fons 8 / 10
floor lamp

- Dimensions: 25" Ø shade, 7'-4"
- Materials: solid wood, metal, linen shade
- Product weight: 65 lb
- Light source: medium base E26 socket
- Lamping: E26 base, type A lamp, 60 W max
- Input voltage: 120 V AC max
- Includes 72" clear silver cord with inline foot switch 24" from base
- Bottom diffuser included (CM-051)
- Wood grain will vary
- Specifications subject to change
- Included dimmable LED A19 bulb
- Light output: 800 Lumens (source)
- Light color: 2700 K
- Color accuracy: 90+ CRI
- Power usage: 11 W

MATERIAL & FINISH OPTIONS

Fons part # 05-600-	
Boom Arm brushed aluminum (CM-006)	A
Wood Body walnut (CM-001)	W
Fabric Shade white linen (CM-016)	L
Arm Length 8'	E
10'	T

- Includes:*
- stainless steel tension cable (CM-053)
 - black powder coated steel base (CM-049)
 - frosted polymer diffuser (CM-051)

Alternate voltage/plug styles are available

ARM LENGTH

Available in 10'-8" and 8'-4" arm lengths
Arm length is from back of base to center of shade
Arm lengths are not adjustable

SHADE HEIGHT

Shade height (floor to bottom edge of shade) can be adjusted between 6'-2" maximum and 3'-9" minimum

walnut (CM-001)

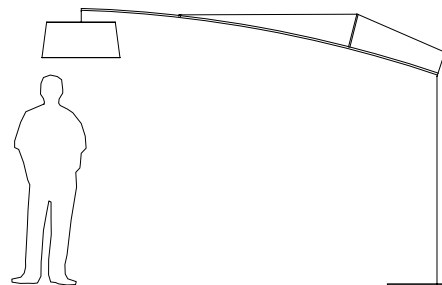

white linen (CM-016)

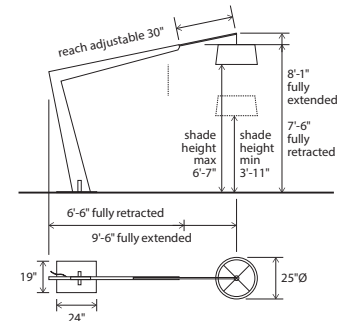

The goal with the Fons was to minimize the structure and visual massing of the fixture while maximizing the reach or cantilever. The delicate boom arm, upheld by a tension cable, gently bends while reaching out to almost horizontal where it suspends the light. The structural design is an extremely effective way to resolve the forces associated with such a long reach. It is so effective and efficient that it seems to float with a weightlessness at the tip.

Nick Sheridan,
Designer

Valeo
floor lamp

Dimensions: 8'1" H max, 25" Ø shade
 Materials: solid wood, metal, linen shade
 Product weight: 95 lb
 Light source: medium base E26 socket
 Lamping: E26 base, type A lamp, 60 W max
 Input voltage: 120 V AC max
 Includes 72" clear silver cord with inline foot switch 24" from base
 Bottom diffuser included (CM-051)
 Wood grain will vary
 Specifications subject to change
 Included dimmable LED A19 bulb
 Light output: 800 Lumens (source)
 Light color: 2700 K
 Color accuracy: 90+ CRI
 Power usage: 11 W

white washed oak (CM-095)

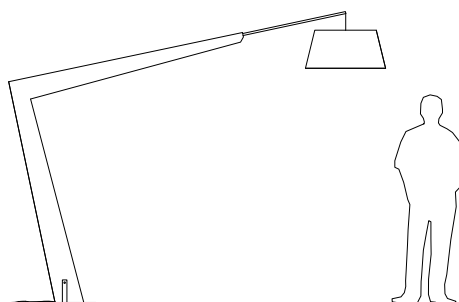

dark stained walnut (CM-002)

white linen (CM-016)

When reaching such a distance with a fixture, it is important that it feels visually efficient in its form but is still far from fragile, inviting one to linger under it. The adjustability in the reach and the height of the shade make it possible to custom fit the piece to its surroundings - an important characteristic for such a large piece.

Efficiency and simplicity guided the design process for the Nauta table lamp. We designed the Forma several years ago with Frank Carfaro of Desiron, which profoundly influenced the Nauta's form. Our goal was to distill the Forma design without compromising it. The Nauta is clean, modern, and priced competitively.

The Altus is a robust fixture that also carries an air of elegance and subtle proportion. It has the mass and impact to anchor a space while still showing balance and grace. It is always exciting to see how the solid wood trunk comes out; admiring the wood grain all the way through.

Frank Carfaro and I worked to design a piece that embraced both Cerno and Desiron's aesthetic, without deviating too much from either brand's design language. I am really pleased with the fluidity, posture and scale we achieved with the Forma.

The Silva Giant, as the name suggests, is a giant version of our Silva table fixture. Its scale gives it a strong presence even in very large spaces, while its distilled form gives it a simplicity that can be seen from across the room. A fun piece with a huge personality.

Lenis linear pendant

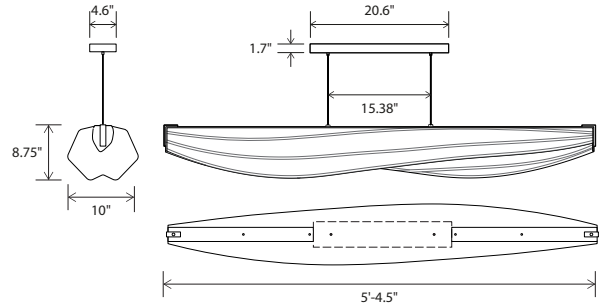

Bret, Dan and I have always loved the ocean and boats. In fact, the first project we built together as young boys was a sailboat. Our appreciation for the beauty of a well-designed craft is what initially inspired the Lenis fixture; the form is created by bending wood stringers over a series of bulkheads. The organic and sculptural structure deviates from our mostly rectilinear forms, which introduced many new challenges, yet it also breathed new life into the design process for us. Ultimately, we were searching for that balance between the curved fluidity of its lines and the twisting movement. Thanks to our team's determination, after countless studies and prototypes, we found the balance we were looking for.

The Arca is an experiment with density and mass. As one moves around the room, the fixture morphs from a commanding presence of solid walnut into a graceful bar of light surrounded by an elegant porous cage.

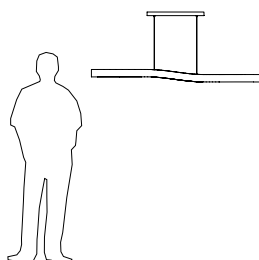

Nick Sheridan,
Designer

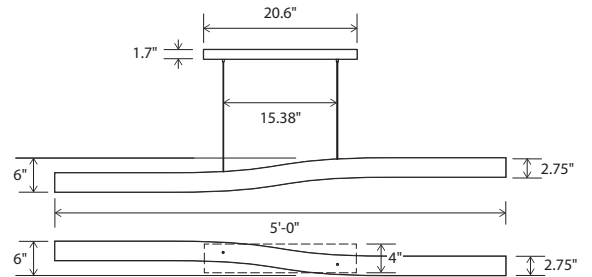

Light and delicate, subtly unique while simple, the camur must be experienced to really be appreciated. The gentle curve appears from the bottom just the same as it does from the side: but the perspectives found between the two intrigue.

The Aeris was a collaboration with New York based designer Frank Carfaro of Desiron. The organic and often wild swirls of walnut grain are interrupted by rigorous slits and inlays that punctuate each face to create a beautiful juxtaposition, making each fixture unique. The glow of the illuminated wood seen through the cut slits creates a rich composition of light and shadow.

walnut, top detail

On our Cerno journey, we continue to evolve as designers and craftsman. The Penna is a celebration of us drawing and reflecting on our last ten years. This design is an embodiment of all the lessons that we have learned from designing and building thousands of lights. This fixture balances utility and sophisticated beauty well. The walnut, brass, and leather work in concert to compose a modern form with materials that have been used for thousands of years.

Nick Sheridan,
Designer

Penna 40 dimensions: 40.5" x 7.7" , 2.3"

Penna 64 dimensions: 64.5" x 7.7" , 2.3"

Penna 40 weight: 7 lb

Penna 64 weight: 10 lb

Light source: integrated LED

Penna 40 light output: 1530 Lumens (source)

Penna 64 light output: 2550 Lumens (source)

Light color*: 2700 K or 3500 K

Color accuracy: 90+ CRI

Penna 40 power usage: 21 W

Penna 64 power usage: 35 W

Dimmable (see driver below)

Linear canopy included

Canopy dimensions: 11.9" x 4.4", 1.7"

Canopy finish: matte black (CM-085)

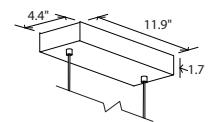

See website for more canopy information

8'-0" drop length, field adjustable

Suitable for a sloped ceiling

Wood grain will vary

Specifications subject to change

I wanted to create a simple geometric sculpture that lets the light inside just sneak out around the floating walnut planes: letting the natural wood fall in and out of the light. It is this play with contrast and light and shadow that makes the Abeo such a dynamic piece.

Nick Sheridan,
Designer

Spero pendant, black / black leather

brass / brown leather

white / tan leather

black / black leather

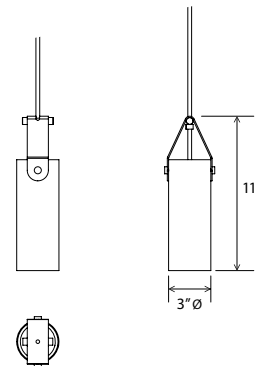

distressed brass / black leather

details

The Spero Pendant illustrates a minimalist mindset without sacrificing design details that define the fixture. Pronounced metal accents join the leather strap to the shade, adding a balanced contrast between the different elements. The bottom aperture allows the delivery of ample light while shielding the rest of the space from glare.

dark stained walnut (CM-002)

white washed oak (CM-095)

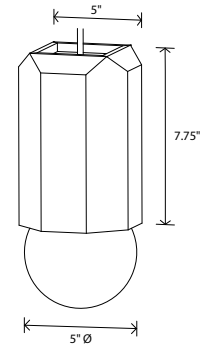

Designing with LEDs often lends itself to hiding, or using a low profile light source. The Cano pendant does the opposite; the light bulb is an integral part of the design. The solid hardwood faceted body is enhanced when paired with a spherical glowing bulb.

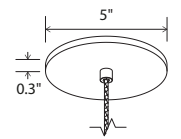

Built of one inch thick solid hardwood, the Bimar showcases the beauty of natural woodgrain. Eight faceted sides compose a design that works well in a modern or transitional space. The combination of natural wood and a glowing sphere bulb warms up any environment.

Bimar
pendant

Dimensions: 5" x 5", 7.75"
 Materials: solid wood
 Product weight: 3 lb
 Light source: medium base E26 socket
 Lamping: E26 base, type G40 lamp, 20 W max
 Input voltage: 250 V AC max
 Textured Black Powder Coat (CM-049)
 low profile round canopy with Grey Cloth Covered Cord (CM-106)
 Canopy dimensions: 5" Ø, 0.3"
 See website for more canopy information
 Field adjustable drop length:
 0'6" min - 6'0" max
 Suitable for a sloped ceiling
 Wood grain will vary
 Specifications subject to change
 Optional dimmable LED G40 bulb
 Light output: 1000 Lumens (source)
 Color accuracy: 90+ CRI
 Power usage: 11 W

Lamping		
2700 K LED	27	
3500 K LED	35	
Driver		
AC Input Voltage Range: 120-277 V		
120 V input:		
TRIAC, ELV & 0-10 V dimmable	P1	
240 & 277 V input: only 0-10 V dimmable		

Includes: frosted polymer (CM-024)

*Available in 3000K, 4000K and other color temperatures upon request.

walnut

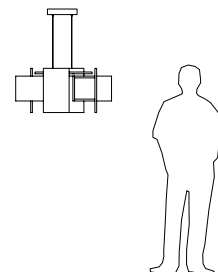

walnut, under view

dark stained walnut

The way the walnut planes in the Muto both block and bounce light makes for a very dynamic composition of light and shadow, from any vantage point. While the pinwheel form with its repeating elements is symmetric, it appears very sculptural from any one view. The modern floating ideal is realized in the Muto. By holding each walnut element away from its neighbor, so each plane floats, the whole fixture feels weightless as if it were floating itself.

Nick Sheridan,
Designer

Astrum 11 pendant

gloss white (CM-054)

Inspiration for the Astrum dates back to the first light fixture the three of us ever made after starting Cerno. The varying depths of the flat panels strategically obstruct a direct view of the light source. Light reflects off the inside of the outer panels and bounces off the inner panels producing a halo washing effect. The oculus at the bottom functions to emit a useful amount of downlighting. This design manages to pay homage to past modern designs while also feeling a bit futuristic.

The Ignis and Imber were inspired by the same design principles that make Cerno and ICRAVE well suited to collaborate. Honesty, simplicity, elemental, timeless and quality are words that sit at the core of both companies' design ethos and we believe these light fixtures embrace these qualities well. Each fixture was reduced to its essential parts – frame and shade – highlighting the interplay of the components, and accentuating the clean lines of the form.

	Ico part # 06-240-20	R - C
Size	20"	
Shade Finish	R	
spon solid brass (CM-091)		
Suspension	C	
corded (CM-090)		

Includes: brushed brass (CM-008)

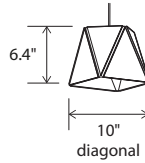

After working with drum cymbals on a few custom projects, we grew to appreciate the design and engineering that goes into these beautiful objects. Cymbals have a simple form, rich texture, and a beautiful brass finish. Modernism is often about utilizing what already exists and repurposing things, which is what we did with this fixture. The Ico looks excellent when paired with a simple light bulb.

matte black w/matte white interior

gloss white, closeup

Veris was a concept we started exploring ten years ago. Two offset layers of petals simultaneously shield the light source while allowing reflected light to wash the inside petals, creating a dramatic ambient luminaire. The form materializes through a series of processes that utilize cutting edge CNC laser technology but still rely on skilled hand-rolling and bending of the aluminum petals.

 Power usage: 19.5 W
 Dimmable (see driver below)
 Driver must be housed in J-box
 Driver dimensions: 3.3" x 1.6" x 1", included

E26 Medium Base Specifications

Lamping: 2x E26 base, type A lamp,
 60 W max each
 Input voltage: 250 V AC max
 Bulbs not included

Textured Black powder coat (CM-049) low profile round canopy with black SVT-3 Cable, Black (CM-039)
 Canopy dimensions: 5" Ø, 0.3"
 See website for more canopy information
 Field adjustable drop length: 0'6" min - 8'0" max
 Specifications subject to change

low-profile round canopy with black SVT-3 cable

MATERIAL & FINISH OPTIONS

Veris 22 part # 06-260-22

Shade Material

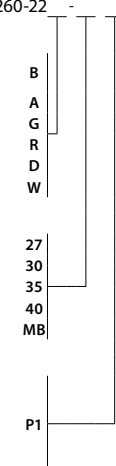

- matte black (CM-085) with matte white interior
- brushed aluminum (CM-012)
- brushed rose gold (CM-046)
- brushed brass (CM-047)
- distressed brass (CM-096)
- gloss white (CM-054)

Lamping

- 2700 K LED
- 3000 K LED
- 3500 K LED
- 4000 K LED
- medium base E26 socket

Driver (LED version only)

- AC Input Voltage Range: 120-277 V
- 120 V input:
- TRIAC, ELV & 0-10 V dimmable
- 240 & 277 V input:
- only 0-10 V dimmable

Veris was a concept we started exploring ten years ago. Two offset layers of petals simultaneously shield the light source while allowing reflected light to wash the inside petals, creating a dramatic ambient luminaire. The form materializes through a series of processes that utilize cutting edge CNC laser technology but still rely on skilled hand-rolling and bending of the aluminum petals.

Veris 34 pendant

Dimensions: 33.5" Ø, 23"
Product weight: 8 lb
Suitable for a sloped ceiling

Integrated LED Specifications

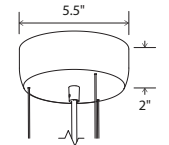

Light output: 2815 Lumens (source)
Light color: 2700 K, 3000 K, 3500 K or 4000 K
Color accuracy: 90+ CRI
Power usage: 32.5 W
Dimmable (see driver below)
Driver housed in extended canopy
Driver dimensions: 3.3" x 2.4" x 1", included

E26 Medium Base Specifications

Lamping: 3x E26 base, type A lamp, 60 W max each
Input voltage: 250 V AC max
Bulbs not included

Textured Black (CM-049) extended round canopy with SVT-3 Cable, Black (CM-039) and 1/16" Stainless Steel Cables (CM-053)
Canopy dimensions: 5" Ø, 2"

See website for more canopy information
Field adjustable drop length: 1'0" min - 8'0" max
Specifications subject to change

Levis S / L
pendant

Dimensions: 5.3" Ø, 5.5" H
 Materials: polymer, veneer, aluminum
 Product weight: 1 lb
 Light source: integrated LED
 Light output: 345 Lumens (source)
 Light color*: 2700 K or 3500 K
 Color accuracy: 90+ CRI
 Power usage: 3.2 W
 Dimmable (see driver below)
 Driver location: must be housed in J-box
 Driver dimensions: 2" x 1.3" x 1", included
 Brushed aluminum (CM-006) low-profile square canopy with white braided cord included
 Canopy dimensions: 4.5" x 4.5", 0.38"
 Must use included external LED driver (2.25" x 1.5" x 1")

Accent pendants can be clustered by using multi-point round canopy or multi-point linear canopy
 See website for more canopy information
 6'-0" drop length, field adjustable
 Suitable for a sloped ceiling
 Wood grain will vary
 Specifications subject to change

Dimensions: 10.6" Ø, 11.1"
 Materials: polymer, veneer and aluminum
 Product weight: 7 lb
 Suitable for a sloped ceiling
Integrated LED Specifications
 Light output: 1250 Lumens (source)
 Light color*: 2700 K or 3500 K
 Color accuracy: 90+ CRI
 Power usage: 13 W
 Dimmable (see driver below)
 Brushed aluminum (CM-006) extended-profile square canopy with white braided cord included
 Canopy dimensions: 4.5" x 4.5", 1.8"
 Canopy required to house LED driver (3.3" x 1.6" x 1.0")
 See website for more canopy information
 6'-0" drop length, field adjustable

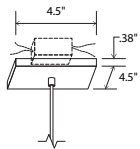

Medium Base Specifications
 Lamping: E26 base, type A lamp, 60 W max

walnut (CM-001)

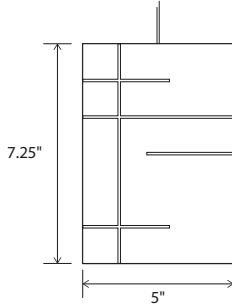

dark stained walnut (CM-002)

The Mica is simply a cube, which has been carefully deconstructed to a sculptural state. By way of the fixture's orientation and petal material composition, it exudes a certain organic symmetry. The Mica pendant acts as a beautiful node, creating a sense of space marked with an ambient glow.

walnut

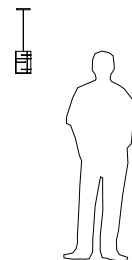

dark stained walnut

The ClauDo showcases the beautiful natural walnut wood grain and sets it against the rigorous slits cut in each face as they wrap around the simple, clean shade form. A beautiful glow emanates from each slit, showing the striking rectilinear composition, in which all four sides are unique.

Nick Sheridan,
Designer

walnut, brushed aluminum

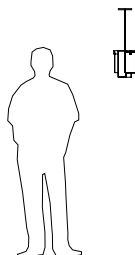

walnut, brushed aluminum

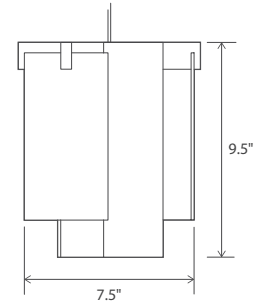

The Salix pendant's materials and proportions are in perfect harmony. The brushed aluminum set against the oiled walnut in this fixture still feels strikingly fresh and beautiful after years of production.

distressed brass, walnut

Casia is a fresh and innovative approach to a flush mount light fixture. Each carefully selected material plays an integral role in the aesthetic design and performance. The wood arms, metal shade, and glass diffuser combine to create a minimalist form well suited for a modern environment or a more traditional space. The 14" version works well in bathrooms, closets, narrow corridors, and smaller kitchens. The 18" and 22" sizes are incredibly dynamic and work well in different environments such as commercial, residential, and hospitality applications.

Cerno's product development team prioritized the utility of the Allavo vanity, while not ignoring the importance of the aesthetic. Drawing from our experience with product photography, we knew that a large diffuse light source was the key to achieving our goal. The novel design uses indirect lighting that bounces off a curved metal surface.

Cerno's signature use of wood is integrated seamlessly into a design we believe harmonizes usefulness and beauty.

Merus 31", walnut

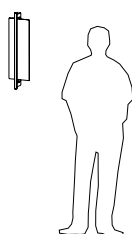

Merus 22", walnut

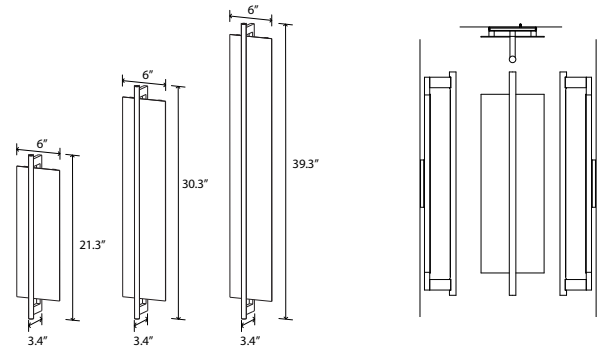

walnut, bottom details

Merus is a quintessential Cerno design. Clean, modern lines paired with a novel indirect light source compose a form that balances beauty and usefulness. Our team used Cerno's signature material palette of wood and metal.

Talea
articulate wall sconce

textured black, walnut, burlap

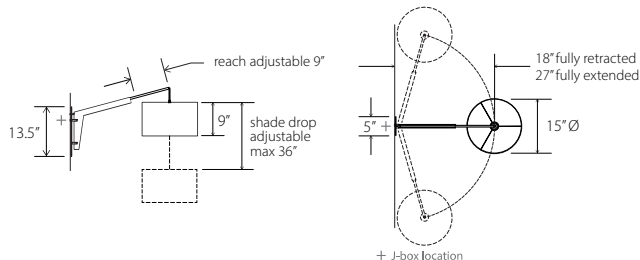

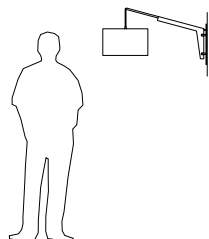

brushed aluminum, walnut, white linen

textured black, dark stained walnut, black amaretto

The adaptive and interactive features of the Talea introduced exciting challenges to the design process. I believe we found a balance that allows this fixture to thrive in a range of spaces and different applications. I am really pleased with how the design language turned out, specifically how the expressive hinge suggests its ability to swing, and how the wood to metal arm detailing suggests the arm can telescope. It's a beautiful mixture of utility and elegance.

Nick Sheridan,
Designer

Dimensions: 18.38" x 5" x 34.75", 15" Ø shade
Materials: solid wood, metal
Product weight: 5 lb
Light source: medium base E26 socket

The Spero Sconce illustrates a minimalist mindset without sacrificing design details that define the fixture. Pronounced metal accents join the leather strap to the shade, adding a balanced contrast between the different elements. The bottom aperture allows the delivery of ample light while shielding the rest of the space from glare.

Penna 64, mounting studs

On our Cerno journey, we continue to evolve as designers and craftsman. The Penna is a celebration of us drawing and reflecting on our last ten years. This design is an embodiment of all the lessons that we have learned from designing and building thousands of lights. This fixture balances utility and sophisticated beauty well. The walnut, brass, and leather work in concert to compose a modern form with materials that have been used for thousands of years.

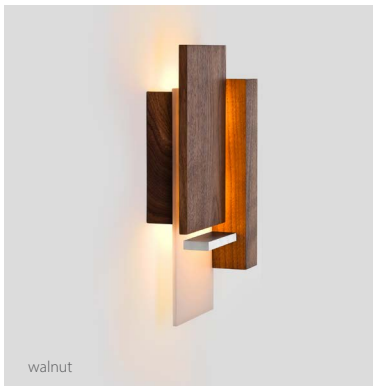

Nick Sheridan,
Designer

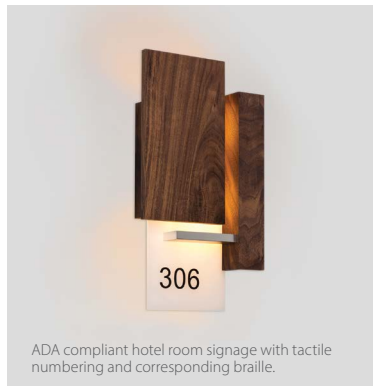

Vesper
sconce

dark stained walnut

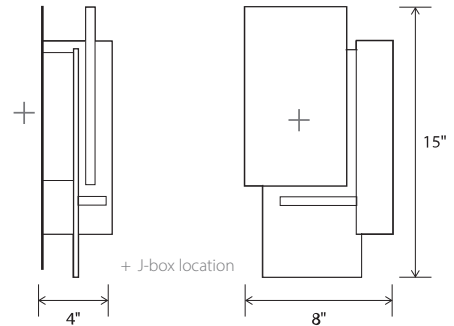

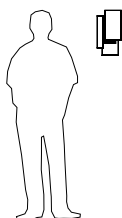

walnut

ADA compliant hotel room signage with tactile numbering and corresponding braille.

The Vesper is a very simple geometric sculpture composed of brushed aluminum, American black walnut, and white polymer. The light not only washes up and down the wall but also filters out through the composition, exhibiting the fixture's depth in three dimensions.

The Tempus Sconce draws inspiration from nature's beautiful designs. The rounded profile, rounded edges, and ample but smooth diffuse light exudes warmth. The solid wood body highlights the elegance of the wood grain. The design is dynamic, working well in traditional, transitional, or sleek modern environments.

Nick Sheridan,
Designer

It's a 3 sided box, which has been carefully deconstructed to a sculptural state. The careful composition of overlap and void create interest and complexity to a very straightforward, well-functioning wall sconce. The tectonic disconnection in form allows you to witness the solid American black walnut's grain as it travels through each solid block.

The Ora's sturdy design prioritized sleekness and structural integrity. This sconce is efficient and delivers ample usable light. A minimalist aesthetic makes it adaptable and suitable for different genres of designed environments. By simply selecting a natural hardwood or metal finish, a designer can completely change the feel of a room.

Emergency backup option available upon request, requires oversized J-box

The Sedo is composed of just three floating planes all kept parallel to the wall. This simple composition cloaks the light engine from view and filters the light as it is delivered far up and down the wall. It's this wall grazing and diffuser glow that gives the Sedo a strong architectural presence.

Nick Sheridan,
Designer

The Fortis wall sconce is a great example of the collaborative design process. The initial concept from the New York based Desiron was refined over many iterations. We then worked with the local Southern California artisan glass company Siemon & Salazar to achieve a very specific bubbled glass lens that diffuses the light. It is a strong and sophisticated display of three elements: a piece of metal, a piece of wood, and a piece of glass all beautifully showcased in light.

Nick Sheridan,
 Co-Designer

Levo Shelf Option

The introduction of the optional shelf for the Levo increases the utility of this fixture without compromising any aspect of the design. The shelf provides a perfect place to rest your phone or tablet while charging it. It is important to note that shelf is purchased separately from the Levo and can be retrofitted on existing Levos.

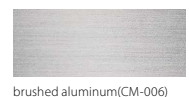

left model with shelf option

LEVO SHELF OPTIONS

Includes:
 solid walnut shelf (CM-001)
 brushed aluminum (CM-006)

The goal for the Levo was to create a bedside wall fixture with great task lighting articulation that was intuitive enough to be used without prior knowledge of the fixture: all the while making it slender, sexy, and very robust.

Efficiency and simplicity guided the design process for the Nauta table lamp. We designed the Forma several years ago with Frank Carfaro of Desiron, which profoundly influenced the Nauta's form. Our goal was to distill the Forma design without compromising it. The Nauta is clean, modern, and priced competitively.

Nick Sheridan,
Designer

Forma
desk/table lamp

Dimensions: 15" Ø shade, 31" H
 Materials: solid wood, aluminum, fabric shade
 Product weight: 10 lb
 Light source: medium base E26 socket
 Lamping: E26 base, type A lamp, 60 W max
 Input voltage: 120 V AC max
 Dimmable on fixture
 Wood grain will vary
 Specifications subject to change

MATERIAL & FINISH OPTIONS

Forma table part # 02-150-

Metal Finish

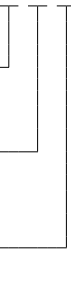

- brushed aluminum (CM-006) A
- black anodized aluminum (CM-007) B

Wood Body

- walnut (CM-001) W
- dark stained walnut (CM-002) D

Fabric Shade

- black amaretto (CM-018) A
- white linen (CM-016) L
- burlap (CM-017) N

Alternate voltage / plug styles available

brushed aluminum, dark stained walnut, white linen

Being our most traditional fixture, Frank Carfaro and I worked to design a piece that embraced both Cerno and Desiron's aesthetic, without deviating too much from either brand's design language. I am really pleased with the fluidity, posture and scale we achieved with the Forma table, and its likeness to the Forma floor lamp.

*Nick Sheridan,
Designer*

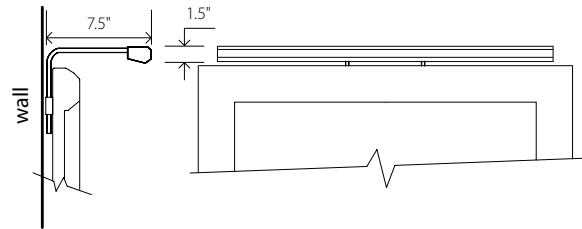

Forma table, brushed aluminum, walnut, burlap

Revelite AL
art light

The Revelite AL brings art to life.

A challenge resolved by a slim luminaire that discreetly and evenly illuminates an artwork surface with beautiful color rendering accuracy.

CUSTOMIZED

Each AL is custom built and factory calibrated for an artwork's specific dimensions, distributing even illumination across the full width and height of the surface.

HIGH COLOR ACCURACY

To accurately reflect the artist's vision, the LED light source was designed to provide full color spectrum lighting with a color rendering index over 90 and an R9 value of 83.

ART SAFE

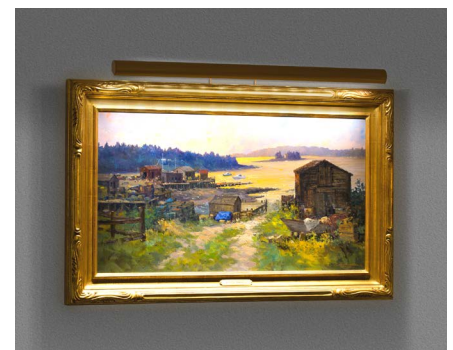

Revelite AL's LED technology provides a much safer alternative to legacy sources that emit excessive and damaging UV and heat.

LOW PROFILE

The minimal form virtually disappears against the frame or wall and pairs well with various styles of art, including contemporary, photographs behind glass and more traditional works.

US Patent # 7,070,293 and 9,134,004.

Other US and International Patents Pending.

"These lights revealed subtleties in paintings you just don't see with ordinary lights. I think we are seeing, truly for the first time, what the artist really wanted us to see".

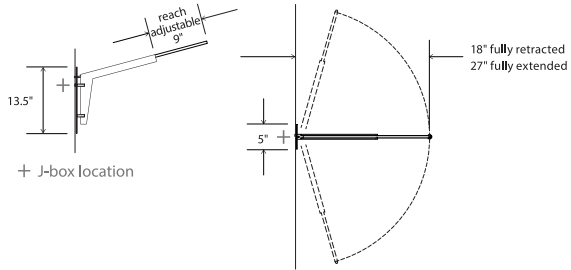

Pat Trenton, Ph.D.

Art expert, curator and writer

Motus Swing Arm Bracket

accessory

Dimensions: 18.38" x 5" x 26.8"
 Materials: solid wood, metal
 Product weight: 3 lb
 Max suspension weight: 5 lb
 Swing arm length can be adjusted from 18" to 27"
 Max drop length from tip of extended arm to top of pendant is 36"
 Swing arm rotation has adjustable resistance in pivot hinge
 Wood grain will vary
 Specifications subject to change

Motus with Plura 18 Pendant
 Pendant dimensions: 18" Ø, 6.4"
 Lamping: 2x GU-24 base socket, 18 W max each
 See Plura 18 pendant for more information.

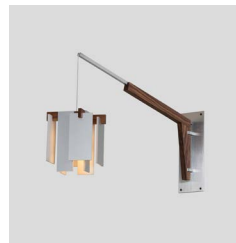

Motus with Claudio Pendant
 Pendant dimensions: 5" x 5", 7.25"
 Light source: integrated LED
 See Claudio accent pendant for more information.

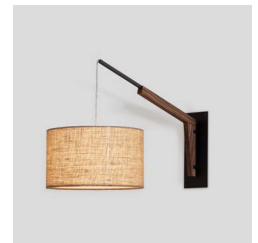

Motus with Mica Pendant
 Pendant dimensions: 9" Ø, 5.75"
 Light source: integrated LED
 See Mica accent pendant for more information.

Motus with Calx 10 Pendant
 Pendant dimensions: 6.75" x 6.75", 6.4"
 Light source: integrated LED
 See Calx 10 accent pendant for more information.

Motus with Salix Pendant
 Pendant dimensions: 7.5" x 7.5", 9.0"
 Light source: integrated LED
 See Salix accent pendant for more information.

Motus with Talea Pendant
 The Talea is a stand alone fixture that also utilizes our swing arm bracket. Shade dimensions: 15" Ø, 9.0"
 Lamping: medium base E26 socket, type A lamp, 60 W max.

For additional finishes and full specifications see Talea, articulate wall sconce on page 93.

HOW IT WORKS: BUILD YOUR OWN FIXTURE

Pick one of the pendants shown at right and pair it with the Motus Swing Arm Bracket for a unique and versatile light fixture. To order, you will need to select a SKU for the pendant that you choose and a SKU for the Motus Swing Arm Bracket. The SKU builder for the Motus Swing Arm Bracket is above, and the SKU builders for the pendants are located on their respective tear sheets.

Motus in brushed aluminum and dark stained walnut, with Calx 10 in dark stained walnut

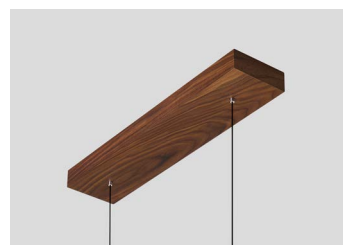

Canopy Accessories

Multi-Point Round Canopy
For 3 accent pendants
Dimensions: 12"Ø, 1.25" H

Multi-Point Linear Canopy
For linear pendants or 2 or 3 accent pendants
Dimensions: 20.6" x 4.6", 1.7" H

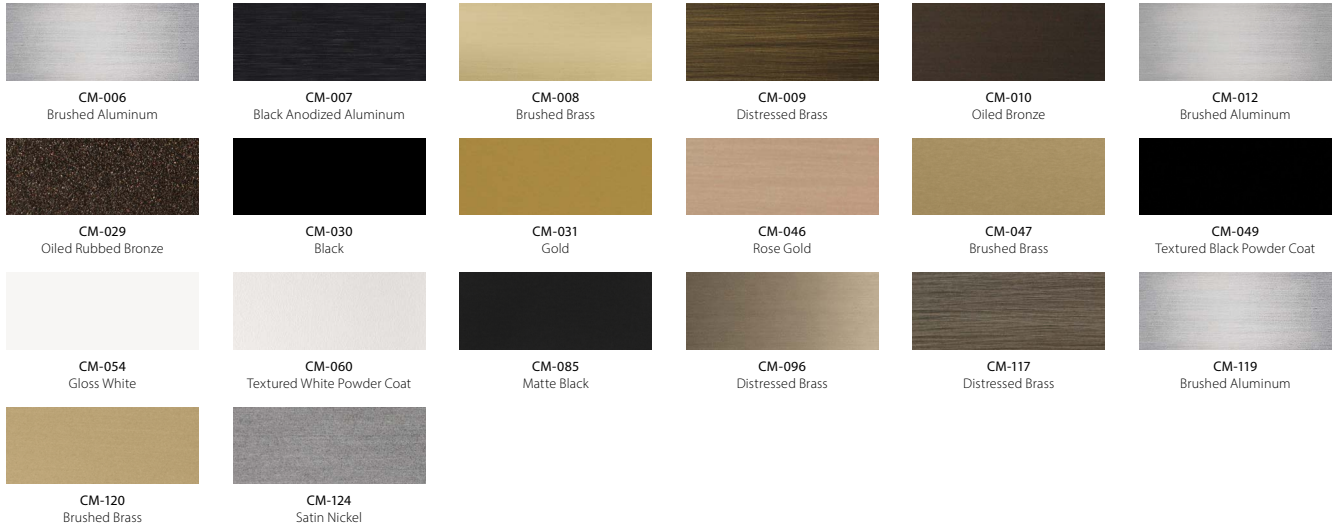

Wood Canopy Cover - walnut
Fits over linear canopies except for Camur canopy
Dimensions: 21.3" x 5.2", 2" H

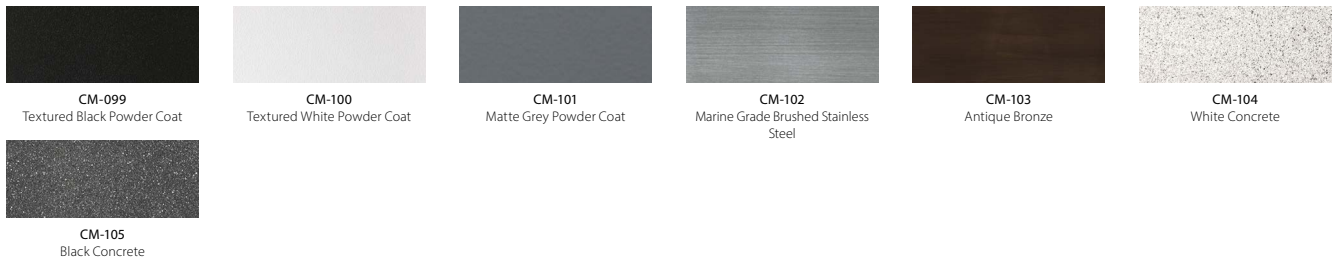

Wood Canopy Cover - dark stained walnut
Fits over linear canopies except for Camur canopy
Dimensions: 21.3" x 5.2", 2" H
