**“While dad was giving a
shape to light,
I was learning how to shape
a company”**

Achille Carcano, Owner

Paola & Achille Carcano

1. Our history, our family

Contardi is a young company with a rich history. After launching our first Contardi-branded product in 2006, the company began to grow and evolve each year, with an expansion that's been robust over the last six years. Since the brand launched, Contardi has become a well-established brand headquartered in the Brianza District, where today's most coveted Italian furniture and design brands are produced. Prior to this, Contardi has a well-documented 30-year history of successful collaborations, providing its lighting expertise to some of the most iconic Italian brands on the market. The company was born from the creative genius, Michele Carcano, who had a passion for prototyping and worked for Stilnovo

– one of the first companies to build a reputation in lighting design.

Fast-forward to today, and Michele Carcano's heirs – Achille and Paola Carcano – have taken the reins of the company. Achille and Paola are supported by a very close-knit team, similar to an extension of a family working together, with part of the team working together since the brand's inception.

Contardi is now a brand synonymous with service, quality and flexibility, and has become a reliable reference point for architects, interior designers and lighting consultants who are in search of original, well-designed decorative and functional luxury lighting - as well as unparalleled expertise and service.

1a. Contardi USA

Contardi's success led the company to enter the US market in 2015. Today, this market has become of great importance for the brand. With recently opening an American brand, Contardi is growing a strong presence in this extensive market.

The American branch, which is ETL certified, guarantees direct brand participation in one of the most-important key regions of the world, with a growing e-commerce footprint.

2. Contardi Contract Division

We work closely with architects, interior decorators and lighting designers, so we are able to catch and translate the designer's concepts, meeting the client's needs and the budget of the project. Hotels, restaurants and yachts become stages where the versatility of products blends perfectly with the surroundings, independently from the style and the characteristics of the project itself. Contardi Contract Division offers a dedicated service on customer requests:

**BESPOKE
MODIFIED STOCK
VALUE ENGINEERED**

The Hoxton, Rome

Shangri La, Hong Kong

Mayfair Townhouse, London

The Address Downtown, Dubai

Lutetia Hotel, Paris

The Carlyle, New York

3. Tailoring and avant-garde technology

Internationally renowned as the "Couturier of Contemporary Lighting", we have earned this reputation over the years for our skilful sartorial approach, for the variety of materials used, as well as the elegance of the finishes combined with the most innovative LED technology, all designed to ensure that the quality of the lighting responds to contemporary requirements.

4. Flexibility

Flexibility is our strength and what distinguishes us from the rest. Style variety does not mean a lack of identity though. On the contrary, it means a capacity to interpret different styles and to adapt to different settings.

5. Sustainability

Our commitment to an increasingly sustainable business has emerged over the course of the last few years and, after obtaining some great achievements, we are now ready for a new challenge to further reduce our environmental impact with a clear set of targets, which constitute our Pole Star in terms of sustainability.

6. Certification

Today, a Brand's presence on the international market requires the ability to provide certifications. Contardi responds to this need by investing resources and expertise. Our company is ETL certified for the American market, and CCC for the Chinese market.

Thanks to the internal technical office, Contardi is able to satisfy requests for certifications such as SABER for Saudi Arabia, CoC for Morocco, and EAC for the Russian market.

Air
Adam Tihany

WHAT'S AIR?

The new eco-friendly AIR suspension light, conceived by the renowned **Adam Tihany**

What is "GREEN CAST®" material?

- **100%** PMMA granules from pre and post consumer
- **100%** regenerated raw material

Which are "GREEN CAST®" advantages?

- **100%** recyclable
- **Respect** of primary resources
- **Reduction** in the use of raw materials
- **Re-use** of what is considered waste

AIR
FOR A **MORE SUSTAINABLE IMPACT**
ON THE **WORLD OF DESIGN**

1. Cream-colored "GREEN CAST®"

HANDCRAFT **VIENNA STRAW**

NATURAL STONE

PRINTED FABRIC

CALACATTA MARBLE PRINTED FABRIC EFFECT

Starting with a simple slab of Calacatta marble, we drew inspiration for the original marbled fabrics produced in this new collection; the elegant and bright white patterning, enhanced by undertones ranging from gold to grey, has been digitized, using advanced technology and high resolution photography, and then is then printed on luxurious fabric.

**The print reproduces
the unique shimmering motifs
of this organic stone,
making each Contardi lamp
even more special and unique.**

Our sartorial vocation has led us to think creatively, using processes that envelop the balance between classic workmanship and sleek contemporary design.

BLENDING
TECHNOLOGY
& CREATIVE
DESIGN

1. Timeless design created in Italy

We at Contardi interpret the outdoor collection as a way to bring the interior design to the open-air. The idea is to keep the same decorative and qualitative characteristics of the indoor products without forgetting the pragmatic aspect, specifically the intended use. The use of high-quality decorative materials and fabrics is successfully combined with finishes and regulations required for the highest standards, such having a rating of IP65 and products being of "Marine Grade".
