

B.LUX

3G Floor

Design by: Mario Ruiz

Add g-force style to any spot in a room with the halogen-lit 3G floor lamp, designed by Mario Ruiz. The stand and cylindrical shade are made from aluminum; the x-shaped base and height-adjustable mechanism make this fixture adaptable to contemporary environments and mid-century modern styles alike. The color-combinations—a black or white gloss finish with matching shades, or shades in two-tone versions of black exterior/white interior or black exterior/red interior—bring the force of flexibility to a space.

24 Karati Octagonal Pendant

Design by: Matteo Ugolini

If all that glitters is gold, the 24 Karati Octagonal pendant, designed by Matteo Ugolini, will add a glistening accent point to any space. Available in opaque milk-white and translucent pale yellow or smoky clear triple-layer glass, the pendant is handcrafted in Italy. What other country in the world inspires more romantic gestures? We wager none, so consider these pendants jewelry for creating amorous interiors.

Basquet Table

This circular table lamp carries the perfect name given its Basque roots and its coquettish personality. The nickel-plated body of the Basquet, designed by Gemma Bernal, holds a cylindrical screen made of warm grey fabric to complement the frame's finish. Spaced cleverly around a hotel bar, these illuminaries would bring a warm intimacy that will delight the party set.

Stratos Collection

Bell Pendant

Design by: Mark Braun

When a material is encapsulated in an all-encompassing essence, the result is a beauty that rings true in every aspect of design. Meet the Bell pendant in the Stratos Collection in a handful of colors from a serene sky blue and a fanciful rose to an elemental green and a dramatic black. Designer Mark Braun cleverly kept the inside white ceramic so the light filtering from the fixture is resoundingly ebullient.

B.LUX

Belt

Design by: AIA Salazar-Navarro

The architectural firm AIA Salazar-Navarro designed Belt, an organically riveting outdoor light fixture with as much personality as weather-ability. The sculptural monolith, created from a twisting steel beam with a Cor-Ten finish, is illuminated with LED light sources from the ground on either side. The juxtaposition of strong weathered steel and a fluid form make the Belt Outdoor landscape light a conversation piece as well as a luminous light source.

Jacco Maris

Benben Pendant - Type 1

Design by: Jacco Maris

TYPE 1:
Width 5"x Height 8.5"

When French interior designer Florence Deau featured Jacco Maris' new Benben pendant on her blog FLODEAU, she copped to having an "absolute crush on the finishes, the graceful forms and the beautiful pastel tones." Maris says of his design, which he sees as a stack of five different elements forming a contemporary totem, "The lights create a playful look...the hanging lamp is beautiful on its own or as a group to create a superb art piece." Made of steel, Benben comes in a variety of colors and finishes.

Big Mama Floor

Design by: Estela + Nereo

Invite the Big Mama floor lamp into the room and prepare to be eclipsed by the statuesque fixture made of weed tree wood topped with a parchment paper shade. In the Stratos Collection of lighting, the Big Mama was designed by Estela + Nereo as an eco-friendly nod to time-honored materials harvested from the Nordic landscape. Who knew that such basic elements could bring a space such climatic charm?

Birdy Compact Pendant

Design by: Studio Bizzarri

Why would a caged bird sing? This question has occupied the minds of some of the world's greatest artists, poet Maya Angelou and musician Sting to name but two. Well, we have found the answer in the Birdy compact pendant designed by Stefano Bizzarri and Claudio Cinti of Studio Bizzarri. What winged creature wouldn't be all atwitter set within such a whimsical creation, available in both matt black lacquered metal and matt white lacquered metal? At 33.5 inches, this version is a bit more compact than the full-sized Birdy pendant.

Why would a caged bird sing? This question has occupied the minds of some of the world's greatest artists, poet Maya Angelou and musician Sting to name but two. Well, we have found the answer in the Birdy pendant designed by Stefano Bizzarri and Claudio Cinti of Studio Bizzarri. What winged creature wouldn't be all atwitter set within such a whimsical creation, available in both matt black lacquered metal and matt white lacquered metal? At 45.25 inches, this version is a bit longer and leaner than the compact pendant.

Black Out Small Pendant

Design by: Matteo Ugolini

The pace required by our bustling lives seems to pick up speed each and every year. With this tempestuous tempo in mind, designer Matteo Ugolini created the perfect antidote in the Black Out Small Pendant. Switch it on, see it bathe a setting in a romantic glow, and watch as it wrests sighs and relaxes shoulders after even the toughest day at the office. The pendant has a structure of white-painted metal and comes in two hues of fiberglass: white and clear.

Dharma Pendant

Design by: Edmondo Testaguzza

Unless joined, Yin and Yang will never a full circle make. Designer Edmondo Testaguzza sought this level of wholeness when he imagined “several flames in one-embrace,” then used the premise to envelope light with angular concrete. The exterior of the resulting Dharma pendant has a slightly distressed feel while the fixture’s interior is fitted with a nickel-plated metal band that brings the emitted light more reflective power. This makes Testaguzza’s mantra “Dharma is the path” a beautifully illuminated placid one.

Diva Pendant

Design by: Peter Natedal & Thomas Kalvatn Egset

As if merrily dancing from its tether to the ceiling, the Diva pendant, designed by Peter Natedal and Thomas Kalvatn Egset for Northern Lighting, lives up to her name given her larger-than-life personality. Made of bent plywood in laminated oak or walnut, its spiraling midriff morphs into two distinctive versions of itself from different vantage points. The inner stem supports a mouth-blown glass globe with a frosted surface that softens the light.

Dokka Pendant

Design by: Birger Dahl

If Mad Men decided to take its mid-century modern pizzazz on the road into the glacial climes of Norway, the Stratos Collection has a pendant light that would serve its style-consciousness well. The precursor to the Dokka pendant was the first Norwegian light to ever be awarded the Golden Medal at the Milan Triennali. Designed by Birger Dahl, the post-war icon debuted in 1954 but it has never lost its fresh appeal, available in black, brown, chrome and white.

Double Bubble

Design by: David Abad

David Abad designed the Double Bubble suspension lamp with an aluminum structure, an opaline thermoplastic diffuser and luminous light aplenty. The red fabric cable winding down, through and around the long, lean fixture, gives it a bit of an edge. The Double Bubble is available in a textured white or textured black finish with 2 size options, the 130 and the 160; both hold fluorescent lamps.

Eden Laurel Wall

Design by: Matteo Ugolini

The Eden Laurel wall fixture is like a cocoon of light bundled into the shape of the beautiful Laurel leaf that flourishes high in the Appalachians. The fixture, designed by Matteo Ugolini, has an iron structure that is covered in white Lycra to create an ethereal glow that nature's most powerful nighttime element, the moon. Place it on its own or pair it with the Eden Aspen wall and Eden Magnolia wall lights for a playful elemental statement.

Eliana Table

Design by: Manel Ybargüengoitia

When sleek is as pared-down as possible, the result is nothing short of a modern phenomenon. Take B.lux's Eliana, designed by Manel Ybargüengoitia, as an example. The ultra thin fixture, in steel and zamak, is a metallic marvel as it morphs between its two axes. The bulb is halogen, and the two positions it assumes are a slanting inverted L and a lower Z configuration.

Fog Pendant

Design by: Front Design

If you came across the Fog pendant, you might think you've entered an altered universe where planets flame and marine layers float in petite balls of beauty. Made of glass that is sandblasted on the inside, the opacity graduates smoothly from slightly filmy at the top to ethereally opaque at the bottom. Though the materials are classic, the effect is mysterious—a hallmark of products by Front Design.

Jacco Maris

Framed Circle Pendant

The Framed Collection of light fixtures by Jacco Maris might as well be saying, "Strike a pose," offering any slice, square or circle of a room illumination worthy of a portrait as it does! The geometric shapes of all of these fixtures, such as the Framed Circle pendant, are hot-rolled into a steel profile. The illumination is incorporated into the steel frame, creating playful profiles of radiance along a wall or ceiling. Also available in this family of fixtures is the Framed Square pendant, the Framed Updown pendant and the Framed Leaning floor lamp.

Ginger Oblate Pendant

This family of fixtures, designed by Edmondo Testaguzza, should come with the caveat that a serious case of nostalgia is a likely side effect. The glow emanating from the Ginger Round pendant, the Ginger Oblate pendant and the Ginger Pear pendant harken back to times when brightly wrapped pieces of candy were kept in exquisitely designed jars on emporium shelves. Hang one for a delightful glimmer of light or mix and match them for a symphony of luminescence in either translucent pale yellow or smoky triple-layered glass.

Forestier

Imperatrice Pendant

Forestier's Imperatrice pendant, in the Fil De Fer collection, takes light to a higher stylistic plane with its texturally rich surface and diffuser, both of which work in concert to create a patterned glow.

Secto Design

Kontro 6000

Design by: Seppo Koho

Northern lights. Crafted by hand in Finland, Secto Design lampshades are an elegant study in Scandinavian simplicity. Light radiates through slats of birch in architect Seppo Koho's designs, true to his credo that "light should softly invite people to come closer."

The Kontro 6000 is a pendant lamp with a double personality, its mirror-image shape part of its charm. Hang it above a table or counter, or in a hallway to fill the space with a warm glow.

LED 40 Floor

Design by: Mikko Kärkkäinen

The LED40 floor lamp slants its slice of light toward its Corian® base from within a long, thin “box” of wood in satiny-smooth natural finishes of ash, oak or walnut, or in white or black. Made in Finland, this fixture has an ultra-sleek diffuser that runs the length of its front edge to soften the LED light-source. The LED40, designed by Mikko Kärkkäinen for Tunto, has a shorter table version with identical charm.

Life Bell Floor

Design by: Matteo Ugolini

Remember those perfectly aged pair of jeans worn to the point of supple softness and edgy pride? That pretty much sums up the Life Bell floor lamp. Designed by Matteo Ugolini, this version of Life holds a fluted bell-shaped shade with scalloped edges perched atop an industrial chic metal base. A bit of color is added to white denim into which a pattern is cut with a laser—seemingly at random, though this is far from the case. The fabric is then stonewashed to add that feel of near mystical chic that made those jeans (and this fixture) look better and better over time.

A bit of color is added to white denim into which a pattern is cut with a laser—seemingly at random, though this is far from the case. The fabric is then stonewashed to add that feel of near mystical chic that made those jeans (and this fixture) look better and better over time.

Life Dome Pendant

Design by: Matteo Ugolini

Remember those perfectly aged pair of jeans worn to the point of supple softness and edgy pride? That pretty much sums up the Life Dome pendant. Designed by Matteo Ugolini, this version of Life is a dome-shaped shade with scalloped edges. A bit of color is added to white denim into which a pattern is cut with a laser—seemingly at random, though this is far from the case. The fabric is then stonewashed to add that feel of near mystical chic that made those jeans (and this fixture) look better and better over time.

Life Slender Pendant

Design by: Matteo Ugolini

Remember those perfectly aged pair of jeans worn to the point of supple softness and edgy pride? That pretty much sums up the Life Slender pendant. Designed by Matteo Ugolini, this version of Life is a long slim drum with scalloped edges. A bit of color is added to white denim into which a pattern is cut with a laser—seemingly at random, though this is far from the case. The fabric is then stonewashed to add that feel of near mystical chic that made those jeans (and this fixture) look better and better over time.

Loom Pendant

Design by: Benjamin Hubert

The handmade Loom pendant has a wire frame, and comes in two three-dimensional shapes: a bell or a lantern, both made of cushy polyester that diffuses its light in a soft, luscious glow. Designed by Benjamin Hubert, the fixture can be ordered with seams in white, blue, dark grey, dark green, yellow and orange.

Loos Pendant

Design by: Luca Nichetto

Three felted layers with varying patterns create a playful profile for the Loos pendant, designed by Luca Nichetto. This is one light fixture you'll never tire of because the moveable shades can be shifted for an array of new effects. The design is a study in paradox, as time-honored Scottish tartans and many-windowed modernist facades inspired its inception.

Secto Design

Magnum 4202

Design by: Seppo Koho

Northern lights. Crafted by hand in Finland, Secto Design Oy lamps are an elegant study in Scandinavian simplicity. Light radiates through slats of birch in architect Seppo Koho's designs, true to his credo that "light should softly invite people to come closer."

An oversized version of Secto's classic 4200 model, the Magnum 4202 is a graceful lighting solution for large, open spaces and rooms with high ceilings.

Mek Camshaft Pendant

Design by: Studio Bizzarri

If the Mek pendants, designed by Stefano Bizzarri and Claudio Cinti of Studio Bizzarri, have you shouting “Vroom, vroom,” it can’t come a surprise given these fixtures mimic the shapes of engine parts. Whether hung singularly or in grouped compositions, the Mek Clutch pendant, Mek Crankshaft pedant, and Mek Camshaft bring a touch of Steampunk to the spaces they illuminate. Each design is available in black ceramic, white and bronze ceramic, or white ceramic.

Nando Grip Pendant

Design by: Luca De Bona & Dario De Meo

This family of pendants is a nod to Ferdinando Innocenti, who founded the machinery-works company Innocenti and was the creator of the Lambretta motor scooter. Designers Luca De Bona and Dario De Meo created the fixtures, which are made of punched metal with lacquered finishes in gold, white and gray. To pay homage to the celebrated Italian businessman who began his career as a blacksmith, each design is striking hung singly, but clustered in a group the Nando Handlebar pendant and Nando Grip pendant will take a space whizzing past ho-hum to well done!

O Pendant

Oh! you'll say when you see the clever trick the O pendant pulls by virtually disappearing under its glowing square of light. David Abad designed this slim suspension lamp made of aluminum with a polycarbonate diffuser. It comes in a direct lighting version and is available in two finishes: silver or textured white. O is available in a dimmer version and in other measurements and finishes, and emergency kits are available upon request so don't hesitate to ask!

Ondas Ceiling/Wall

Design by: Miguel Ángel Ciganda

The Ondas ceiling fixture, designed by Miguel Ángel Ciganda, has an opal white thermoplastic shade that radiates style. Outwardly square and inwardly circular, it is a lit manifestation of the undulant pattern created by a pebble tossed into a still pool of water. A chrome center fitting anchors the shade, covering a fluorescent bulb. The 20" square version of this fixture created tremendous buzz at recent design shows, and the entire Ondas family is excellent for corporate interiors, as well as commercial settings and public spaces in hospitality projects.

Orange you glad David Abad turned his highly sophisticated design eye to lighting? His Orange S fixture has a kinky colorful orange interior and cord; the aluminum shade's striking no-nonsense exterior comes in glossy white and glossy black versions. New color configurations include a textured black exterior with silver or textured gold on the inside (and a black cord) or a textured white exterior with silver or gold on the inside (and a white cord). The suspension lamp measures 9" wide and 11" tall and is also available in an oversized version measuring 23.6" wide and 27.6" tall.

Jacco Maris

Paraaf Pendant

Handmade in Holland not only has a nice “ring” to it, it means Jacco Maris’ fixtures exhibit exemplary quality and jaw-dropping style only a lover of experimentation could achieve.

The Paraaf pendant was created by hand from a single strip of stainless steel, the inspiration for the curvy light fixture the pleated ruff collars and intricate signature flourishes popular during Elizabethan times. Exhibiting the organically flowing sophistication now a hallmark of Jacco Maris’ inimitable style, the Paraaf will likely become one of the designer’s “signature” pieces!

Petite Table

Design by: Miguel Herranz

As they say, dynamite comes in small packages and the power-packed style of Petite, designed by Miguel Herranz, proves that big design can indeed radiate from a diminutive fixture. The extruded aluminum structure articulates, which makes it an excellent reading light, and the Petite detaches from its base to fit seamlessly into a shelf-clamp. Shade choices include aluminum, polycarbonate or fabric, and available finishes are matte or polished aluminum.

Phi 80 Pendant

Design by: David Abad

The Phi 80 pendant, designed by David Abad, has become an instant hit with editors, designers and architects alike. Composed of squares of textured white metal morphing into triangles as the light-play enlivens the uppermost segments of each section and eases others into shadow, Abad dubs this a Scandinavian-inspired suspension lamp.

Pietro Pendant

Design by: Matteo Ugolini

Like elegantly sculpted stones floating on dainty threads, the Pietro pendant, designed by Matteo Ugolini, is a Zen-like study in illuminated tranquility. Its matt ceramic exterior hugs the light within its heart, emitting it as a soothing glow once it flows from its interior. Grouped in sets of three or more at varying heights, these celestial bodies become veritable installations of illuminated art.

Secto Design

Puncto 4203

Northern lights. Crafted by hand in Finland, Secto Design Oy lamps are an elegant study in Scandinavian simplicity. Light radiates through slats of birch in architect Seppo Koho's designs, true to his credo that "light should softly invite people to come closer."

With an arresting shape that at once evokes shade and flares, the Puncto 4203 is a strong, sculptural light source designed especially for low spaces. Atop a dining table, it's sure to spark conversation.

Round Pendant

This spherical suspension light, designed by Marco Bisenzi, has been tapped by architects for some of the world's hippest boutiques, including Hugo Boss. Made from polycarbonate with a mirror-like finish, it is available in two sizes—the S1-40, which measures 15 ¾ inches diameter, and the S1-50, which measures 19 ¾ inches in diameter. The light source is high quality Cree LED's, perfect for the color-correct demands of fashion houses, art galleries and kinky salons.

ST902 Small Pendant

Design by: Tom Rossau

The ST902 Small pendant infuses surrounding surfaces with striated light, which wafts through natural birch or cream-colored Bolivar shades—the warmth bringing an entire space an earthy glow in either wood's tone. The fixture also comes in a copper-brushed aluminum version. Tom Rossau expresses his Danish roots to infuse these fixtures with the quintessential naturalness that seems to come to so effortlessly to him and his countrymen (and women).

ST903 Extra Large Pendant

Design by: Tom Rossau

Scallop shaped and effusively luminous with its arcing striations of light, the ST903 Extra Large pendant comes in natural birch, gray oak, black Bolivar and a brownish-black Zebrano multi-laminar—an environmentally friendly option for the beautiful but over-harvested species, and in small medium and large sizes. Tom Rossau expresses his Danish roots to infuse these fixtures with the quintessential naturalness that seems to come to so effortlessly to him and his countrymen (and women).

ST906 Pendant

Design by: Tom Rossau

The chrysalis of the loveliest butterfly has nothing on the ST906 Pendant, as its natural birch or white-coated paper shade sheathing its illumination is so buoyant the radiance has no desire to stretch its wings and take flight like its animal equivalent is inspired to do. Tom Rossau expresses his Danish roots to infuse these fixtures with the quintessential naturalness that seems to come to so effortlessly to him and his countrymen (and women).

Jacco Maris

Stand Alone Floor Lamp

Design by: Jacco Maris

Height 57.25"

POWERED BY
GlobalLighting

Handmade in Holland not only has a nice “ring” to it, it means Jacco Maris’ fixtures exhibit exemplary quality and jaw-dropping style only a lover of experimentation could achieve.

The inspiration for the Stand Alone floor lamp was a tractor headlight, but its industrial chic demeanor is definitely greater than the sum of machined parts. Available in black, the statuesque fixture measures 57-inches tall.

Swan Floor

Design by: Mikko Kärkkäinen

The LED40 floor lamp slants its slice of light toward its Corian® base from within a long, thin “box” of wood in satiny-smooth natural finishes of ash, oak or walnut, or in white or black. Made in Finland, this fixture has an ultra-sleek diffuser that runs the length of its front edge to soften the LED light-source. The LED40, designed by Mikko Kärkkäinen for Tunto, has a shorter table version with identical charm.

Swan Table

The Swan table lamp, designed by Mikko Kärkkäinen for Tunto, has a graceful arching neck with a folded edge enveloping the light-source, both of which mimic the elegant bearing of its namesake. Projecting light toward its Corian® base, the lamp comes in natural finishes of ash, oak or walnut, or in white or black. Made in Finland, this fixture has a taller floor version that introduces equal allure to any number of stylistic interiors.

TR12 Large Pendant

Design by: Tom Rossau

Perfecting its pear-shaped pose, the TR12 Large pendant is a juicy morsel of light, its natural birch exterior diffusing its interior glow as deliciously as the ripest fruits of summer. The TR12 also comes in a white Polypropylene version, as well as in copper-brushed aluminum, gold-brushed aluminum and iron-brushed aluminum iterations. The TR in the name given to these fixtures represents the initials of Danish designer Tom Rossau.

U Dos Wall

Design by: David Abad

The U Dos by David Abad will address your lighting challenges directly or indirectly. The architectural light fixture is made of aluminum and softens the fluorescent light source with a thermoplastic diffuser. A dimmer and an emergency kit are available for the fixture, which comes in silver or glossy white painted versions. The U Dos can be ordered in three sizes and light intensities: the 70 holds a 24-watt T5 fluorescent lamp, the 130 holds a 54-watt T5 lamp, and the 160 holds a 49-watt T5 lamp.

U W/C

Design by: David Abad

David Abad created the U W/C, astutely designed bars of light that create fine form while nailing their function! The aluminum structure of the architectural fixture comes in silver and glossy white painted versions, with a thermoplastic diffuser. Place them on the wall or the ceiling for equally stunning light displays. The U W/C can be ordered with an optional dimmer and emergency kit. The light source is fluorescent in three sizes (70,130,160).

Via Rizzo 7 Compact Pendant

Design by: Matteo Ugolini

The Via Rizzo 7 pendant by Matteo Ugolini is reminiscent of street lamps in his hometown when he was a boy. These old-fashioned utilitarian objects, which witnessed the laughter and tears of his youth, have been reinterpreted into classically clean fixtures of gray matt ceramic with white interiors. The shape reads like a beautifully sculpted, inverted Japanese rice bowl with an artful stem. This pendant comes in two sizes, its pale colors adding to the serenity the light signifies.

Victo 4250

Design by: Seppo Koho

Northern lights. Crafted by hand in Finland, Secto Design Oy lamps are an elegant study in Scandinavian simplicity. Light radiates through slats of birch in architect Seppo Koho's designs, true to his credo that "light should softly invite people to come closer."

The curvilinear design of the Victo 4250 pendant lamp results in an inviting ambient lighting suited to both private and public areas.
