# Origami

Design by Ramón Esteve.

Recalling the folded paper of the Japanese art form for which it's named, Origami generates a stunning play of light and shadows. Composed of two architectural modules that be arranged in countless personalized designs, it creates the effect of climbing ivy along a blank expanse of wall.

Recalling the folded paper of the Japanese art form for which it's named, Origami is composed of two architectural modules that be arranged in countless personalized designs. Positioning clusters across a broad surface creates the effect of climbing ivy along a blank expanse of wall and doubles as dramatic wall art. Powered by an LED and requiring only a single electrical outlet, Origami casts an ambient glow, generating a stunning play of light and shadows.

# Break

Design by Xuclà & Alemany.

Resembling an avant-garde sculpture, Break is distinguished by its architectural attitude. The cubic volumes angle provides down light, while doubling as sculptural outdoor presence.

Resembling an avant-garde sculpture, Break is distinguished by its architectural attitude. The fixture features cubic volumes angle provides down light, while doubling as sculptural presence to complement an outdoor setting. Break is available in two types of floor lamps—one a beveled cube that creates a powerful beam of light to illuminate the area around it; the other a vertical stack of two shapes through which light shines. It's also offered in a wall lamp, which reflects light outwards through a slot between it and the wall on which it's mounted.

# Micro

Design by Ramos & Bassols.

Powered by an LED light source tucked between its two circular forms, Micro's diminutive design recalls a solar eclipse casting a glowing nimbus of light.

As its name suggests, Micro is distinguished by a diminutive, yet precise design that measures a mere 5 inches.

A pleasing interplay of concentric circles, its simple, spherical base attaches to the wall and is superimposed by a smaller, protruding ring. Powered by an LED tucked between the two layers, it recalls a solar eclipse casting a glowing nimbus of light.

# Empty

Design by Xuclà.

A sculpture by day and lighting by night, this outdoor fixture embodies multifunctional design. Its crisp angles create a cantilevered perch that serves as a side table or stool.

A sculpture by day and lighting by night, Empty is the embodiment of multifunctional design. Floor lamp and furnishing in one, Empty's crisp angles create a cantilevered perch that serves as a side table or stool, while making a sleek modernist statement. A LED light source tucked discreetly under the seat casts a warm glow that's ideal for walkways or general exterior illumination.

# Palo Alto

Design by Xuclà.

At once natural and architectural, Palo Alto creates the effect of illuminated landscaping. Its angular, tree-shaped silhouette integrates seamlessly with the outdoors whether displayed individually or in a group.

At once natural and architectural, Palo Alto creates the effect of illuminated landscaping. Sleek and streamlined, its angular, tree-shaped silhouette integrates seamlessly with the outdoors. It's offered in various minimalist shapes and can be displayed individually or in a group to resemble a stand of trees. The upper reaches of the sturdy steel fixture are fitted with slim swaths of LEDs directed downwards to create diffuse, ambient glow.

# Meridiano

Design by Jordi Vilardell & Meritxell Vidal.

Meridiano features a grid of steel slots through which LED light radiates outwards in a dramatic sunburst pattern. Topped with foam, it doubles as a seat or side table, its airy architecture integrating easily into outdoor spaces.

Meridiano is formed from a spherical steel shade fitted with open slots. An ambient LED shines through the diffuser, radiating outward from the grid across a broad surface in a dramatic sunburst pattern of shadow and light. The bench topped with foam, it doubles as a seat or side table, its airy architecture integrating easily into outdoor spaces.
